P.F.T.

assurance of the best

When specifications demand the best in waste treatment equipment the name P.F.T. is the name remembered.

Equipment by P.F.T. is modern and of advanced design, a blend of rugged construction and precision manufacture assures the consulting engineer, as well as his client, satisfaction and trouble-free operation— an assurance of the best.

P.F.T. is the name recognized as outstanding in process and equipment for over sixty years. When you specify P.F.T. you specify quality equipment and service.

P.F.T. Floating Cover Digesters for the ultimate in flexibility and digestion process control. Available in all sizes.

P.F.T.-Pearth Gas Recirculation System. Increases rate of digestion and eliminates scum accumulations.

P.F.T. Rotary Distributors featuring P.F.T. Spreader Jets provide uniform distribution.

P.F.T. Digestion Heaters, available for any size installation using sludge gas. Adaptable to use any commercially available auxiliary fuel.

P.F.T.

waste treatment equipment exclusively since 1893

DEPARTMENT OF REGISTRATION AND EDUCATION STRENGTHENS INVESTIGATING STAFF

William Sylvester White, Director of the Illinois Department of Registration and Education, reports the successful completion of a special school for newly appointed investigators. The school, held in three sessions, was a "first" for Illinois, being the first such school to have ever been conducted by the department. Two sessions were held in Chicago, one on May 12-13 and one on July 14-15. A third session was held in Springfield on May 15-16. The school was well attended with all investigators participating at each session.

Harry L. Curtis, chief investigator for the department was assisted on the faculty by executives, office personnel and investigators of the department and division. The course covered investigation needs for all twenty-four professions and trades whose laws are administered and licensed by the Department of Registration and Education. Attorneys from the department interpreted the 24 laws which regulate the various professions. Many of the professions were represented on the staff of the school faculty by specialists in their field. Dr. Edwin R. Whitehead, professor of electrical engineering, Illinois Institute of Technology, acted as the representative of the Illinois Society of Professional Engineers. Dr. Whitehead, who has served as chairman of the Illinois Professional Engineers' Examining Committee since 1955, has been an active member of the committee for many years. He is held in great esteem in engineering circles in Illinois.

Director White, as head of the school, is well qualified by his past experience to conduct such a course for his investigators. White, received his A.B. degree at the age of 20 and his Doctor of Law degree in 1937, both from the University of Chicago. From 1937 to 1939 he engaged in the general practice of law. In 1939 he was appointed assistant United States' attorney for the northern district of Illinois. Serving under five U. S. attorneys, he handled litigation in both state and federal courts, largely in the field of civil law. His trial experience included criminal cases ranging from fraud to the successful prosecution of war time sedition cases.

PRESIDENT'S COLUMN

Man was created with the innate desire to explore and conquer the unknown. This impulse has driven men to mount the heights of mountain peaks, to probe the heavens, to split the atom and to plan and construct great projects to further extend man's knowledge.

This desire caused Shepard to probe outer space as it did Columbus to discover a new world. The humble beginnings of the Wright Brothers inspired a Lindbergh to span the Atlantic. Such examples are innumerable. You can, through meditation, recall many others.

In these United States we have the privilege to employ our initiative and ingenuity to expand our knowledge to any extent desired. We can utilize this knowledge to best advantage without fear of repercussion. The freedom of choice which we enjoy is what has made our country great, because our forefathers appropriated this God given privilege.

Today, there are those who would rob us of this privilege. They would destroy our initiative by removing incentives to explore and conquer. They would reduce the efforts of all to a common denominator. Nothing will more quickly induce mediocrity. We cannot permit the philosophy of those who would destroy your professional concept to infiltrate our profession.

"Honesty, justice and courtesy form a moral philosophy which, associated with mutual interest among men, constitutes the foundation of ethics. The engineer should recognize such a standard, not in passive observance, but as a set of dynamic principles guiding his conduct and way of life. It is his duty to practice his profession according to these Canons of Ethics.

"As the keystone of professional conduct is integrity, the engineer will discharge his duties with fidelity to the public, his employers and clients, and with fairness and impartiality to all. It is his duty to interest himself in public welfare and to be ready to apply his special knowledge for the benefit of mankind. He should uphold the honor and dignity of his profession and avoid

BEFORE AND AFTER—WITH I.B.M.!

This year's annual Membership Directory is our first produced through use of our IBM system, part of which was installed less than a year ago. We hope you like it.

Many of our members are aware of the rapid growth of the Society during the last few years, but few are cognizant of the paper work involved in processing members.

During the spring of 1960 the task of keeping up with this mountain of work appeared so formidable that studies were made of what could be done to allow a small office staff to do the job required. Our specific problems were explained to representatives from several types of "automatic" or "mechanized" accounting systems. The I.B.M. representative worked out a plan for us and presented a preliminary report outlining costs and procedures. Considering such factors as increasing volumes, the need for additional information, growing statistical requirements, use of coding to aid in simplifying future needs and requests, the report pointed out that, by converting our existing files to punched cards, our machines would enable us to:

- Automatically prepare annual dues statements.
- Prepare data for bank deposits, which also would give sub-totals of the distribution of all money collected and replace a detailed journal entry.
- Print monthly transmittals to NSPE and quarterly refunds to our Chapters showing members paying dues.
- Prepare monthly and quarterly membership reports.
- Produce additional information when inquiries are made to ISPE. (By coding, it is possible to analyze our membership in a number of ways: type of engineer, type of occupational area, type of member, etc.)
- Handle growing volumes and demands with a minimum of additional operating expense.
- Prepare data for an annual Membership Directory.

Although the Membership Directory preparation is listed last, it is by no means the least of the time-saving capabilities of our new system.

The original proposed program would have involved installation of a key punch, a sorter, and an

counting machine. Only after alternate arrangements are made to use an accounting machine already installed in a local insurance office did the program prove feasible. A time and cost study was summarized in a report to the Executive Committee in June, 1960, which resulted in the Society's agreement to "go IBM." This study pointed out that, on a dollar-for-dollar basis, the proposed new system would not be self-sustaining for perhaps a year. Although we will not have completed our first year of mechanized record-keeping until October, our expenditures have been almost parallel to estimates given in the summary report.

Cost of Operation

Under our former operation (in 1960) we employed 21 $\frac{1}{4}$ employees a year, exclusive of the Executive Director. During 1961 the number would probably have been increased to 21 $\frac{1}{2}$ employees if former procedures had been continued. Your ISPE office staff, exclusive of the Executive Director, has averaged 11 $\frac{1}{6}$ employees since last October. At the rate of \$1500 a year for part-time help, only \$500 has been required during our conversion period for work on other than IBM procedures. More than half of our IBM expenditure during this same period would have been paid in salaries merely to perpetuate a cumbersome, outmoded system. Expenditures for IBM machine rental and supplies have averaged \$150 a month to date.

System Design

In the file there are cards for each member as follows: A billing card, a name and name of firm card, and from one to three address cards (depending on the length of the individual's address). In addition, there are up to four more cards which contain variable information pertinent to the individual member. These cards contain information such as schools attended, degrees earned, registration numbers, wife's name, offices held with dates of same. Also in the billing card (or No. 1 card) are columns assigned for a Society membership number; the date first in ISPE; whether or not the member was an Introductory Member; his grade and chapter; the year born; his specific field of endeavor; registration as a Professional Engineer, Structural Engineer, Land Surveyor, or any combina-

tion of these registrations. With but little effort one can imagine the statistics which will be readily available upon completion of the conversion of this information to our card system.

But we will not let our minds dwell on possible, but unproductive, statistics; rather, we look forward to using this simple means of selecting members whose interests lie in certain defined fields and providing facilities for strong communication among those members. For instance, our Functional Section members will all have an opportunity for prompt and close communication and for disseminating information. Any selected group (by grade, chapter affiliation, age, registration, etc.) can be made available for purposes of communication or statistics.

Accomplishments to Date

Cards were punched for each member, giving his name and address, chapter and grade, and the dues amounts for 1961 dues statements. These cards were then put through a numbering machine which assigned a membership number. Statements were run for some 3800 members in about four hours—a job formerly requiring almost three weeks' typing time. (Preparation of 1962 statements will be less time consuming than for 1961, since in most cases the information can be automatically reproduced with only the year changed.)

Our next step added personal information on each member to his cards. Here again, once prepared the cards are always "ready" for use. It is anticipated that any changes or additions will be made as a daily routine in keeping our data correct and current. No more sixteen-hour days (such as experienced this year during our transition period) preparing to meet a deadline! With this step behind us, a time requirement comparison of one day to one month is justified, at least when we prepare for the August membership directory.

It is difficult to convey staff enthusiasm for our new system, but it is there! While we have stated that we will use time to compile only purposeful statistics, we could not refrain from coming up with the following on our Introductory Membership program, begun in 1958:

INTRODUCTORY MEMBERSHIP PROGRAM

	National	State	E-I-T	Total
1958				
Potential	227	20	294	541
Accepted	136 (60.3%)	4 (20%)	148 (50%)	288 (53%)

Call Streator 2-2131 for complete information on STREATOR products.

Save time and money, specify STREATOR Amvit plastic joint pipe. Lays as fast as you can open the trench. Absolutely root-proof and infiltration-proof.

Over 3 miles of STREATOR CLAY PIPE to serve O'Hare International Airport!

City engineers have specified the installation of over 17,000 feet of vitrified clay pipe...with the trouble-free, infiltration-proof Amvit plastic joint...at Chicago's O'Hare Field. The selection was in keeping with the city's determination that the airport's facilities are the best that can be obtained.

Engineers and municipal officials get better values with STREATOR clay pipe because:

it is the pipe with the 50-year guarantee
It will not rust, corrode or decay, is impervious to action of alkalis, sewage, sewer gases, ground waters and industrial wastes.

it makes buying oversize pipe unnecessary
STREATOR clay pipe with the Amvit plastic joint is completely infiltration-proof, making it unnecessary to allow extra size for seepage.

it is close at hand...
ready for immediate delivery
Stocks of all sizes, 4" through 30", are never more than overnight from your job to speed your progress, save time and labor.

(Continued from Page 1)

association with any enterprise of questionable character. In his dealings with fellow engineers he should be fair and tolerant."

These words form the Foreward to our Canons of Ethics. They provide us with a firm foundation upon which to build a philosophy which will produce a strong and virile profession. When we made application for membership in ISPE we prescribed to the N.S.P.E. "Canons of Ethics for Engineers and Rules of Professional Conduct". We are obligated to uphold these canons and rules.

The recent reports of payola, kickbacks and political shenanigans in the construction industry indicate a dire need for a renewed emphasis on professional ethics. Our profession is part and parcel of the construction industry. We must accept our portion of the responsibility for scandals and corruption in the industry.

The Executive Committee of ISPE has become greatly concerned about the increasing number of scandals, particularly those involving engineers. Many publications have issued challenges that something be done to correct the existing conditions. At our July meeting it was decided that we initiate a program to effect the elimination of questionable ethical practices in our profession.

We propose to redouble our effort in this area of activity. ISPE will take severe disciplinary action against any member found guilty of illegal or unethical practices. Particular emphasis will be given to cases involving:

1. The acceptance or offering of bribes or kick-backs from or to contractors, suppliers or any others. This not only violates our Canons of Ethics but is also illegal.

2. The solicitation of political contributions in any form, by a registered engineer, from fellow engineers. The privilege of an individual to make contributions to a political party is recognized. The solicitation of your fellow engineers is in bad taste and in principle violates our Canons of Ethics.

3. Free engineering service, contingent fees or the reduction of fees because profits are realized from other sources, such as: sale of property, materials and equipment or construction of project. Such practices produce unrealistic estimates and erroneous costs. This misleads a client and permits an unfair competitive advantage.

The Executive Committee solicits the cooperation of every member to adhere to the ethical standards depicted by the Canons. It is requested that you report apparent violations. Urge the leaders of other engineering societies to which you belong to initiate similar concentrated efforts to eliminate unethical or illegal violations.

In the past the engineering profession has enjoyed an enviable reputation for honesty, justice and courtesy. In general, the integrity of engineers has been acknowledged. Scandals involving engineers will quickly ruin this reputation.

The moral and spiritual decadence of our time is most apparent. The moral fibre of our nation is threatened. An apathetic attitude, toward the flagrant disregard for law and order, is prevalent.

To re-establish the high regard of our profession will require the concerted effort of all of us. Initiative will be required, our ingenuity will be taxed; dogged determination, however, will prevail. The realization of our goal will be analogous to scaling another mountain peak.

I trust that each reader of this message will determine to follow the lead of the Executive Committee of ISPE in an attempt to establish and maintain a higher ethical standard in our profession.

A. J. Odiet, Salt Creek Chapter (1963) - 261 Northwood Road, Riverside
Gordon W. Neal, Sauk Trail Chapter (1963) - 17107 Whittier Ave., Hazel Crest
K. H. Bowman, West Central Chapter (1963) - 185 N. Pleasant Avenue, Galesburg

*Refer to Annual Meeting year at which present term expires.

** Comprise Executive Committee

OPERATIONS GROUP - Vice President Manuel Garcia

Budget and Finance

Manuel Garcia, Vice President, Chairman (1962) - 8825 Garden Avenue, East St. Louis
R. D. Collins, Treasurer, Vice-Chairman (1963) - 1622 South Fifth St., Springfield
G. L. Farnsworth, Jr., Secretary (1962) - 220 West Jefferson St., Bloomington
H. F. Sommerschield, President (1962) - Stanley Engineering Co., 208 S. LaSalle St., Chicago 4

Chapter Activities

L. W. Pickles, Chairman (1963) - 908 Ridge Road, Peoria
G. M. Booth, Jr., Vice-Chairman (1964) - 820 Wing Street, Elgin
C. A. Hesemann (1963) - 111 Nevada Drive, Decatur
R. E. Noll (1962) - 601 Seneca Drive, Aurora
O. J. Stepanek (1963) - 209 N. Delaphaine, Riverside

Constitution and Bylaws

G. H. Shanahan, Chairman (1964) - 930 Henry St., Alton
C. L. Ritchie, Vice Chairman (1964) - 755 S. Grand Avenue West, Springfield
Frederick Tratzik (1963) - 651 E. Decatur St., Decatur
F. E. Sexton (1964) - 112 E. Main St., Ottawa
W. R. Walker (1964) - 4600 Franklin, Western Springs

Functional Sections

R. H. Olson, Chairman (1963) - Box 170, Route 1, Monee
J. P. DuFour, Vice-Chairman (1963) - Box 838, Edgemont Station, E. St. Louis
I. C. Bliss (1964) - 207 Wabash, Effingham
Linas Brown (1962) - 777 Foxdale Avenue, Winnetka
R. D. Collins (1964) - 1622 S. Fifth St., Springfield
John Dolio (1964) - 208 S. LaSalle St., Chicago 4
N. H. Gundrum (1964) - 3236 Butler, Springfield

Membership

Gerald M. Marks, Chairman (1964) - 53 W. Jackson Blvd., Chicago
A. N. Angonese, Vice-Chairman (1964) - 2550 Dundee Road, Northbrook
John Henline (Ambrav Chapter) - 718 East Elm St., Olney
Tom McBrady (Beverly Chapter) - 18418 Clyde St., Homewood
C. L. Cox (Bloomington Area Chapter) - 1312 E. Empire St., Bloomington
John Shaneman (Capital Chapter) - 2717 S. State St., Springfield
Robert A. Briscoe (Central Illinois Chapter) - 156 Mark Avenue, Decatur
Herbert W. Byers (Champaign County Chapter) - 805 S. Anderson, Urbana
W. E. Werninghaus (Chicago) - 549 W. Washington, Chicago 6
Leo Vogt (DuKane Chapter) - 595 S. State St., Elgin
Harold E. Hofstetter (Egyptian Chapter) - Route 4, Carbondale
C. J. Chamlin (Illinois Valley Chapter) - 2821 Fifth St., Peru
Wayne S. Madden (Joliet Chapter) - 329 Oak Avenue, Lockport
Anthony Demse (Lake County Chapter) - 503 McAree Road, Waukegan
George Shanahan (Madison County Chapter) - 930 Henry St., Alton
Edward M. Kennell (North Shore Chapter) - 1890 Balsam Road, Highland Park
Franklin Gerfy (Northwest Suburban Chapter) - Consoer, Townsend & Associates, 360 E. Grand Ave., Chicago
Melvin W. Smith (Peoria Chapter) - 1 St. Joseph Court, Peoria Heights
Charles Beffa, Jr. (Rockford Chapter) - 1237 Parkwood Ave., Rockford
Walter Kevern (Rock River Chapter) - 1122 Institute Blvd., Dixon
John Lenzini (St. Clair Chapter) - 19 S. 52nd St., Belleville
Jack E. Parker (Salt Creek Chapter) - 710 Woodlawn, Naperville
Howard W. Perrault (Sank Trail Chapter) - 400 Illinois St., Park Forest
W. H. Stoewer (West Central Chapter) - City Hall, Moline

PROFESSIONAL GROUP - Vice President Louis A. Bacon

Education

Ralph G. Michael, Chairman (1962) - 508 W. 56th St., Hinsdale
E. W. Markwardt, Vice Chairman (1963) - P. O. Box 81, Belleville
A. L. Dierstein (1962) - 700 E. Norris Drive, Ottawa
W. W. Dodge (1962) - 3125 N. Sheridan Road, Peoria
W. L. Holz (1963) - Hawthorne Drive, Carmi
J. A. Logan (1963) - 824 Ingleside Place, Evanston
J. D. Hooper (1963) - 911 Hemlock St., Deerfield

Employment Practices

George Glenn, Chairman (1964) - 1301 West Freeman, Carbondale
E. A. Weinel, Vice-Chairman (1964) - 1962 N. 65th St., E. St. Louis
R. A. Ekstrom (1962) - P. O. Box 206, Harvey
C. J. McLean (1964) - 641 Exmoor, Barrington
Nathan Wilcoxon (1963) - P. O. Box 146, Rochester

Ethics and Practice

Robert E. Hamilton, Chairman (1964) - 2112 W. Jefferson, Joliet
R. K. Benschling, Vice-Chairman (1963) - 523 Fairview Blvd., Rockford
A. L. R. Sanders (1964) - 53 W. Jackson Blvd., Chicago
F. S. Wylie (1963) - 220 W. Jefferson, Bloomington

PROFESSIONAL GROUP (Continued)

Fees and Salaries

W. F. Blank, Chairman (1962) - 155½ West Main, Decatur
F. J. Furlan, Vice-Chairman (1964) - 2632 E. Bonnie Brook Lane, Waukegan
W. M. Dutelle (1963) - 648 West Vine, Springfield
E. L. Fieldhammer (1963) - 322 W. Lincoln, Barrington
W. L. Hooker (1963) - 1501 W. Ash Street, Springfield
K. R. Woods (1963) - 721 E. Hillside Road, Naperville
R. V. Woodward (1964) - 310 S. 18th St., Mt. Vernon

Legislation

L. K. Crawford, Chairman (1964) - 755 S. Grand Ave. West, Springfield
A. W. Osterling, Vice-Chairman (1963) - 41 Oak Lane, Springfield
E. M. Fucik (1963) - Harza Engineering Co., 400 W. Madison St., Chicago 6
A. M. Kaindl (1962) - 1741 N. Austin Ave., Chicago
J. A. Shaneman (1962) - 2717 S. State, Springfield
E. L. Simmons (1963) - P. O. Box 69, Decatur
Harry A. Kluge (1964) - 130 Helen Place, Collinsville

Registration Laws Sub-Committee

Thomas D. Gazda, Chairman (1964) - 422 E. Fellows, Dixon
A. S. Zummer, Vice-Chairman (1964) - 1310 Wesley, Evanston
J. R. Gardner (1964) - 253 S. Park St., Decatur
Clifford Westcott (1964) - 328 S. Kenilworth Ave., Oak Park
E. R. Whitehead (1964) - 9120 Fairview Ave., Brookfield

Young Engineers

Lee Rhodes, Chairman (1964) - 12 Norbloom, Bloomington
W. S. Madden, Vice-Chairman (1962) - 329 Oak Avenue, Lockport
Dewey R. Connors, Jr. (1962) - 603 W. Walnut, Robinson
W. Romig (1963) - 124 Kenwood, Collinsville
G. R. Thatcher (1962) - 253 Coventry Place, Edwardsville

PUBLIC RELATIONS GROUP - Vice President C. Dale Greffe

Building and Construction Codes

J. W. Goldenberg, Chairman (1964) - 1700 N. Park Drive, E. St. Louis
E. M. Anderson, Vice-Chairman (1963) - 801 Haines Blvd., Champaign
J. Raymond Carroll (1962) - 3 Illini Circle, Urbana
R. M. Conrad (1963) - 1300 N. University, Peoria
John P. Dahlberg (1963) - 1082 Beecher Ave., Galesburg
W. F. Lubke (1963) - 2637 Roslyn Circle, Highland Park
C. B. Monk (1962) - 1034 Heather, Batavia
R. G. Scott (1963) - Box 172, Barrington
Ingvar Schousboe (1963) - P. O. Box 9, Crystal Lake
H. M. Stoll (1962) - 227 S. Oak Park Ave., Oak Park

Civil Defense

J. W. Marquardt, Chairman (1963) - 908 S. 23rd St., Springfield
C. F. Manion, Jr., Vice-Chairman (1963) - 636 Devonshire Drive, Belleville
E. H. Casson (1963) - 909 Naperville Road, Wheaton
Vincent G. Lauters (1962) - 1524 Wiggins Avenue, Springfield
Wayne S. Madden (1963) - 329 Oak Ave., Lockport
Ronald D. Wallace (1964) - Toulon

Interprofessional Relations

Emory Ikan, Chairman (1964) - 2939 W. Bonnie Brook, Waukegan
Donald J. Larson, Vice-Chairman (1964) - Route 3, Joliet
A. G. Hansen, Jr., (1964) - 1910 Spruce Ave., Highland Park
F. J. Meek (1963) - 69 Hilltop St., E. St. Louis
K. H. Otte (1963) - 1005 S. Knight Ave., Park Ridge

Publications

A. C. Kessell, Chairman (1964) - 216 Black Ave., Springfield
S. B. Friedman, Vice-Chairman (1963) - 3610 Oakton St., Skokie
N. D. French (1963) - 471 Highview Ave., Elmhurst
J. E. Law (1963) - 216 Franklin, River Forest
A. E. Thomas (1963) - 23 Forest Ridge, Springfield

Advertising Sub-Committee

James G. Flood, Chairman (1964) - 6102 S. Blackstone, Chicago 37
W. A. Russell, Vice-Chairman (1964) - 1516 W. Edwards, Springfield
C. T. Grimm (1964) - 135 S. LaSalle St., Chicago
Leo F. Koberlein (1964) - 218 W. Virginia, Columbia

Public Relations

J. E. Scott, Chairman (1964) - 860 Huckleberry Lane, Northbrook
W. J. Roberts, Vice-Chairman (1962) - Box 232, Urbana

E. A. Wimunc (1963) - 1129 Curtiss St., Downers Grove

CHAPTER OFFICERS, 1961-1962

AMBRAY

Pres.: Ralph Hedgcock - 204 West Clark St., Effingham
V.P.: Earl Moldovan - 8 Deer Path Drive, Salem
Sec-Tr.: Gordon Kirkman - P. O. Box 364, Mt. Carmel

BEVERLY

Pres.: Joseph P. Marion - 9010 S. Carpenter St., Chicago 20
V. P.: Edward Lysen - 11210 S. St. Louis, Chicago 43
Secy.: Edward Jamroz - 8037 Houston Ave., Chicago 17
Treas: Wm. Dangremond - 9960 Elm Circle Dr., Oak Lawn

BLOOMINGTON AREA

Pres.: R. J. Dennis - 1306 S. Linden St., Normal
V. P.: Paul E. Baird - 2601 E. Oakland Ave., Bloomington
Sec-Tr: Wm. G. McMichael - 1308 Maplewood Drive, Normal

CAPITAL

Pres.: G. E. Margrave - 184 Maple Grove, Springfield
V. P.: Chas. A. Marr - 710 S. Illinois, Springfield
Secy.: Alvin L. Frank - 2204 S. College, Springfield
Treas: R. L. Rosenberger - 1202 Oakdale, Springfield

CENTRAL ILLINOIS

Pres.: Harlow Piper - 2033 W. Riverview Ave., Decatur
1st VP Gilbert Heseman - 111 Nevada Drive, Decatur
2nd VP Edwin V. Milanski - 920 W. North St., Decatur
3rd VP Roger Snelson - 420 W. Decatur, Decatur
Sec-Tr James Sebern - 1014 E. Cantrell St., Decatur

CHAMPAIGN COUNTY

Pres.: Daniel F. Hang - 2013 Boudreau Drive, Urbana
1st VP Herbert W. Byers - 805 S. Anderson, Urbana
2nd VP R. J. Henneman - 1503 Maywood, Champaign
Secy.: Walter H. Johansen - 1720 Paula Drive, Champaign
Treas: George P. Porter - 214 W. Hessel, Champaign

CHICAGO

Pres.: James G. Flood - 6102 S. Blackstone, Chicago 37
V. P.: Howard DePree - 53 W. Jackson Blvd., Chicago
Secy.: David Novick - 234 S. Wabash, Chicago
Treas: Harry P. Watson - 300 W. Washington, Chicago 6

DUKANE

Pres.: W. E. Deuchler, Jr. - 1345 Garfield Ave., Aurora
V. P.: Paul F. Riddle - 1198 Iroquois Drive, Elgin
Secy.: James Svoboda - 323 W. State St., North Aurora
Treas: James R. Rakow - 454 Enterprise St., Elgin

EGYPTIAN

Pres.: John W. Weaver - 724 Magnolia, Mt. Vernon
V. P.: Roy E. Vinyard - 601 Wood Bldg., Benton
Sec-Tr Robert R. Gates - 1128 W. Walkup, Carbondale

ILLINOIS VALLEY

Pres.: Melvin S. Hook - 952 25th St., La Salle
V. P.: J. E. Raffensperger - 1022 Green St., Henry
Sec-Tr John H. O'Reilly - 1441 Cherokee Lane, Ottawa

JOLIET

Pres.: Sanger Westphal - 1109 Westminster, Joliet
V. P.: Wayne S. Madden - 329 Oak St., Lockport
Secy.: Donald J. Larson - R. R. 3, Joliet
Treas: O. F. Bolling - 359 Whitney, Joliet

LAKE COUNTY

Pres.: F. J. Furlan - 2632 E. Bonnie Brook Lane, Waukegan
V. P.: A. G. Hansen, Jr. - 1910 Spruce Ave., Highland Park
Secy.: Carl A. Anderson - 1829 Lewis Place, Waukegan
Treas: Clifford E. Anderson - 224 Appley, Libertyville

MADISON COUNTY

Pres.: E. N. Juneau - 2656 Delmar, Granite City
V. P.: Vernon Weber - 608 Wyma Place, Edwardsville
Sec-Tr Carl D. Peters - 3001 Fehling Rd., Granite City

NORTH SHORE

Pres.: J. L. Donoghue - 1829 Culver Lane, Glenview
V. P.: Paul Stiefel - 7452 N. Kenneth, Skokie
Secy.: Wm. V. Wagner, Jr., 1437 Deerfield Rd., Deerfield
Treas: Harold Love - 6837 Lexington Lane, Niles (Chgo 46)

NORTHWEST SUBURBAN

Pres.: Kenneth G. Cook - 293 Golf Rd., Des Plaines
V. P.: Carl H. Bowen - 115 W. Central Rd., Arlington Hgts.
Secy.: A. N. Angonese - 709 N. Pine St., Mt. Prospect
Treas: Charles R. Hays - 2012 Linden Ave., Park Ridge

PEORIAREA

Pres.: Emmett Smith - 2612 W. Flint, Peoria
V. P.: Delwin Cobb - 501 E. Virginia, Peoria
Secy.: Edwin Fall, Jr. - 207 Twin Oaks Ct., E. Peoria
Treas: Robert Tolf - Trivoli Road, Trivoli

ROCKFORD

Pres.: Herbert W. Flath - 2112 Auburn St., Rockford
V. P.: J. G. Shedd - Box 195, Rte 6, N. Main St. Rd., Rockford
Sec-Tr Clarence H. Wilson - 980 Grant Ave., Rockford

ROCK RIVER

Pres.: C. N. A. Richards - 819 Depot Ave., Dixon
V. P.: Thomas Gazda - 422 E. Fellows St., Dixon
Sec-Tr Dallas LaCoursiere - 613 S. Logan, Dixon

ST. CLAIR

Pres.: J. W. Goldenberg - 1700 N. Park Drive, E. St. Louis
V. P.: Harold G. Wise - 1704 N. 48th St., E. St. Louis
Sec-Tr Henry E. Davis, Jr. - 2027 Jerome Lane, E. St. Louis

SALT CREEK

Pres.: C. K. Creelman - 4035 Forest Ave., Western Springs
1st VP R. V. Doherty - 5915 W. 199th St., Chicago Ridge
2nd VP Merle Mouser - 6255 W. School St., Chicago
3rd VP Robert F. Hunter - 344 Hemlock Lane, Naperville
Secy.: F. H. Sanneman - 27 North Euclid, Villa Park
Treas: H. M. Rayner - 815 W. Fourth St., Hinsdale

SAUK TRAIL

Pres.: Sydney L. Zeid - 921 Braemar Road, Flossmoor
V. P.: Wm. J. Santana - 1237 Arquilla Lane, Flossmoor
Secy.: Ivan J. Law - 411 Suwanee, Park Forest
Treas: Leroy C. Baskin - 70 Cherry, Park Forest

WEST CENTRAL

Pres.: Richard S. Langman - 1811 12th St., Rock Island
V. P.: W. H. Stoewer - City Hall, Moline
Sec-Tr Edward D. Walker - 2610 31st St., Moline

Constitution and By-Laws

Engineers' Creed

As a Professional Engineer, I dedicate my professional knowledge and skill to the advancement and betterment of human welfare.

I pledge:

To give the utmost of performance;

To participate in none but honest enterprise;

To live and work according to the laws of man and the highest standards of professional conduct;

To place service before profit, the honor and standing of the profession before personal advantage, and the public welfare above all other considerations.

On humility and with need for Divine Guidance, I make this pledge.

*Adopted by
National Society of Professional Engineers
June, 1954*

CONSTITUTION

ARTICLE I—NAME

Section 1. The name of this organization shall be "The Illinois Society of Professional Engineers," hereinafter called the Society.

Section 2. The Society shall be incorporated as a non-profit organization under the laws of the State of Illinois.

Section 3. The Society shall be a member State Society of the National Society of Professional Engineers, hereinafter called the National Society.

ARTICLE II—OBJECTIVES

Section 1. The objectives of this Society shall be:

- Advancement of the public welfare.
- Advancement of the professional, social and economic welfare of the Professional Engineer and the Engineer-in-Training.
- Promotion of high standards of engineering education.
- Maintenance of high ethical engineering conduct and practices.

ARTICLE III—MEMBERSHIP

Section 1. Membership of the Society shall consist of Corporate and Non-Corporate Members.

- Corporate members shall consist of National, State, Honorary and Life members.

- Non-Corporate members shall consist of Engineers-in-Training, Students, Affiliates and Junior Members. The classification of Junior Member shall cease and reference to it eliminated from this Constitution on October 1, 1961.

Section 2. Membership classifications are defined as follows:

- A National Member shall be either,
 - A person holding a valid license or certificate of registration as a Professional Engineer issued by the lawfully constituted registration board of any state; or
 - A Registered Structural Engineer in the State of Illinois; or
 - A person admitted to this classification prior to January 1, 1959.
- An Engineer-in-Training member shall be:
 - A person holding a valid certificate of registration as an Engineer-in-Training issued by the lawfully constituted registration board of any state, or
 - A person who has completed a four-year curriculum leading to a bachelor's degree in engineering from an accredited college of engineering and is employed at some form of work connected with the practice of professional engineering, or
 - A person not over 35 years of age, who, in the opinion of the Board of Direction, possesses qualifications equivalent to those set forth in (2) hereof except as to formal education, who has been employed in some form of work connected with the practice of professional engineering for at least four years and who declares his intention to accomplish registration within 2 years, or
 - A person admitted to this classification prior to January 1, 1959.
- A State Member shall be a person who qualifies under one of the following categories:
 - Is a non-resident of the State of Illinois who holds membership in the National Society through membership in another State Society.
 - Is a registered land surveyor in Illinois.
 - Was admitted to this classification prior to January 1, 1959.
- A Student Member shall be a person who is pursuing a full time engineering curriculum in an accredited college, or was admitted to this classification prior to January 1, 1959.
- An Affiliate Member shall be a person who was admitted to this classification prior to January 1, 1959, or shall be a person who has attained a position in his special pursuit qualifying him to co-operate with engineers in the advancement of professional knowledge and practice, but who is not eligible to be a Corporate Member. An affiliate at the time of his admission shall:
 - Be not less than 35 years of age.
 - Have been engaged in his special pursuit not less than 12 years.
 - Have had responsible charge of important work for not less than 5 years.Affiliate Members in any Chapter shall not exceed 20% of the total Corporate members of that Chapter. Where present Chapter Affiliate Members exceed this percentage, no new Affiliate Members may be added until the above restriction can be complied with.
- A Junior shall be a person who was admitted to this classification prior to October 1, 1951.

Section 3. All National Members and Engineer-in-Training Members shall be members of the National Society.

Section 4. Only Corporate Members shall be eligible to vote in the Society.

Section 5. An Engineer-in-Training Member or a Junior Member cannot remain in their respective grade for more than 10 years.

Section 6. A National Member or a State Member who has attained eminence in the engineering profession or related sciences may be designated as an Honorary Member as provided in the Bylaws.

Section 7. A National Member or a State Member may be designated as a Life Member, upon approval of the Board as provided in the Bylaws, provided he has (1) retired from active practice, and (2) has been a National or State Member of the Society for 20 years or more, and (3) has submitted a written request to the Board requesting transfer to Life Member.

Section 8. Honorary members and life members shall be entitled to the privileges afforded them by virtue of their previous grade of membership.

Section 9. Membership admission or expulsion procedures shall be governed by the Bylaws.

ARTICLE IV—OBLIGATIONS AND PRIVILEGES

Section 1. All members shall adhere to the code of ethics of the Society and the canons of ethics for engineers adopted by the National Society.

Section 2. All members of the Society, Corporate and Non-Corporate, shall have the right to vote in the Chapters and to serve on Society and Chapter Committees. All members of the Society, Corporate and Non-Corporate, except Affiliates, shall be allowed to display the insignia of the Society.

Section 3. National Members shall have the exclusive right to serve as officers of the Society or as Members of the Board of Direction of the Society or National Society; and, they may also serve as officers of any Chapter. State Members shall have the right to serve in any Chapter capacity except that of Chapter Representative. Engineer in-Training Members may hold the Chapter offices of Secretary or Treasurer or Secretary-Treasurer.

ARTICLE V—DUES

Section 1. Annual dues shall be as follows:

- (a) National Member—National dues plus \$10.00 State dues and \$5.00 Chapter dues.
- (b) Engineer-in-Training Member—NSPE Junior Member dues plus \$6.00 State dues.
- (c) State Member—\$10.00 State dues plus \$5.00 Chapter dues.
- (d) Student—\$2.00 State dues.
- (e) Affiliate—\$20.00 State dues plus \$5.00 Chapter dues.
- (f) Junior—\$10.00 State dues.
- (g) Honorary and Life Members—No State dues.

ARTICLE V—DUES—

changes to become effective January 1, 1961:

"ARTICLE V—DUES

"Section 1. Annual dues shall be as follows:

- (a) National Member—National dues plus \$12.00 State dues and \$5.00 Chapter dues.
- (b) Engineer-in-Training Member—NSPE Junior Member dues plus \$7.00 State dues and \$2.00 Chapter dues.
- (c) State Member—\$15.00 State dues plus \$5.00 Chapter dues.
- (d) Student—\$2.00 State dues.
- (e) Affiliate—\$25.00 State dues plus \$5.00 Chapter dues.
- (f) Honorary and Life Members—No State dues."

ARTICLE VI—ADMINISTRATION

Section 1. The Society shall be administered by a Board of Direction hereinafter called the Board. Within the provisions of this Constitution the Board shall have the full authority and power of the Society between annual meetings.

Section 2. The Board shall consist of the President, three Vice Presidents, the Secretary, the Treasurer, the latest available Past President, the National Directors representing this Society on the National Board of Direction, the Chairman of the Representative Council from this Society to the Illinois Engineering Council (so long as such council exists), and Representatives from each Chapter as determined as follows:

Required Number of Corporate Members	Number of Chapter Representatives
Up to 100.....	1
101 - 300.....	2
301 - 500.....	3
501 - 700.....	4
701 - 900.....	5

Section 3. Each Chapter shall be entitled to one vote for an elected Chapter Representative, and an elected Chapter Representative or Alternate may cast all the votes for the Chapter.

Section 4. A majority of the Board Members shall constitute a quorum.

ARTICLE VII—OFFICERS

Section 1. The officers of the Society shall be the President, the three Vice Presidents, the Secretary, the Treasurer and together with the National Directors and the Representatives from the Society to the Illinois Engineering Council shall be elected by a letter ballot for terms beginning at the close of the annual meeting as follows:

- a. The President and the three Vice Presidents shall be elected for one year.
- b. The Secretary and Treasurer shall be elected for a term of two years with the Secretary being elected to begin his term in even numbered years and the Treasurer elected to begin his term in odd numbered years.
- c. The National Directors and the Representatives to the Illinois Engineering Council shall be elected for three year terms.
- d. In the first regular election following the adoption of this Constitution the Secretary shall be elected for a one-year term, the Treasurer for a two-year term, one National Director and one Representative to the Illinois Engineering Council for a one-year term, one National Director and one Representative to the Illinois Engineering Council for a two-year term, and one National Director and one Representative to the Illinois Engineering Council for a three-year term. Thereafter all officers shall be elected in accordance with a, b, and c above.
- e. After the expiration of the term of the duly elected Chairman of the Representatives to the Illinois Engineering Council serving at the adoption of this Constitution, the President, subject to the approval of the Board, shall appoint one of the duly elected Representatives to the Illinois Engineering Council as Chairman, for a period of one year.

Section 2. To be eligible for nomination, election to or retention of an elective office of the Society or as a Chapter Representative a member shall be in good standing. No member may hold two elected positions on the Board simultaneously.

Section 3. The Treasurer shall be bonded as determined by the Board.

Section 4. No member of the Board shall receive a salary or compensation except for expenses incurred in behalf of the Society as approved by the Board.

Section 5. Fees and expenses of persons serving the Society shall be allowed at the discretion of the Board.

Section 6. In the event the office of President becomes vacant and the President is unable to serve, the 1st Vice President shall become President for the unexpired term. All other vacancies in the elected offices, including the National Directors, shall be filled for the unexpired term by appointment by the Board.

Section 7. Duties of the officers shall be as defined in the Bylaws.

ARTICLE VIII—NOMINATION AND ELECTION OF OFFICERS

Section 1. The Nominating Committee shall be as defined in the Bylaws.

Section 2. Nominations shall be made for each elective office and no member of the Nominating Committee shall be eligible for nomination by the committee.

Section 3. Nomination and election procedures shall be carried out in accordance with the provisions of the Bylaws.

Section 4. Nominations by the Nominating Committee or by petitions must be made with the consent of the Nominee or Nominees.

ARTICLE IX—CHAPTERS

Section 1. The membership of the Society may be organized into chapters as authorized by the Board. Each Chapter thus formed shall have a minimum of ten National Members.

Section 2. The Board shall have authority to make rules and regulations for chartering, combining or dissolving Chapters.

Section 3. Each Chapter shall elect representatives and alternates to the Board of Direction as provided in Article VI of this Constitution. The regular term of office of a Chapter Representative shall be two years and shall extend from the close of one annual meeting to the close of the second following annual meeting of the Society, provided that when a chapter is organized its first representative shall be elected for a term of two years or less as the Board of Direction shall specify. Where a Chapter has two or more representatives on the Board, their terms shall be staggered so that all their terms will not expire at the same time.

Section 4. Each Chapter shall adopt a Constitution and Bylaws for its operation as it may deem proper, provided however that nothing contained therein shall conflict with or contravene the Constitution and Bylaws of the Society. Chapter Constitution and Bylaws and proposed amendments thereto shall be submitted to the Board of Direction for approval.

Section 5. A Chapter shall hold at least four meetings per year. A copy of the minutes of every meeting shall be submitted promptly to Society Headquarters.

Section 6. The charter of a Chapter may be revoked when the activities of the Chapter are not conducted in accordance with this Constitution or with the Constitution of the Chapter.

ARTICLE X—FUNCTIONAL SECTIONS

Section 1. The Board of Direction may authorize the establishment of functional sections, comprising members having common professional problems and interests, to operate under the Constitution and Bylaws of the Society.

Section 2. The scope of activities and the sphere of interest of each such section as set forth in the Functional Sections Constitution and Bylaws shall be submitted to the Board of Direction for approval.

ARTICLE XI—COMMITTEES

Section 1. Administrative Committees, standing committees and special committees shall be appointed by the President subject to the approval of the Board.

Section 2. The duties of the Administrative and standing committees shall be as defined in the Bylaws.

ARTICLE XII—HEADQUARTERS

Section 1. The location of the headquarters of this Society shall be determined by the Board.

ARTICLE XIII—BYLAWS

Section 1. The Board shall adopt Bylaws which shall govern all procedures under this Constitution including those of the Board and of the committees.

Section 2. The Bylaws may be amended by an affirmative vote of not less than two-thirds of all members of the Board provided, however, that the text of a proposed amendment shall be furnished to each member of the Board and to the President and Secretary of each Chapter at least thirty (30) days before the meeting at which a vote on the amendment will be taken.

ARTICLE XIV—AMENDMENTS

Section 1. Amendments to this Constitution may be proposed by a majority of the Board or by a petition signed by not less than one hundred (100) Corporate Members of this Society.

Section 2. Proposed amendments to the Constitution shall be submitted together with a letter ballot to each Corporate member at the time ballots are submitted for the Annual Election.

Section 3. An amendment shall be adopted only upon affirmative vote of two-thirds of the votes cast by the Corporate members, provided not less than 20% of the Corporate Members cast affirmative ballots.

ARTICLE XV—EFFECTIVE DATE

Section 1. This constitution shall supersede the present Constitution as revised September 1, 1957, and shall become effective upon its adoption by the voting members of the Society.

BY-LAWS

BY-LAW I—ANNUAL MEETING

A. The annual meeting of the Society shall be held at the time and place determined by the Board and it shall be officially announced to the members at least six months preceding the meeting.

BY-LAW II—DUES

A. Dues shall be payable annually in advance on January 1 to State Headquarters office. Chapter dues shall be disbursed quarterly by the State office to the Chapters to which the payers belong, the quarters ending January 31, April 30, July 31, and October 31.

B. Persons admitted to the Society between December 1 and June 30 inclusive shall pay full year's dues. Persons admitted between July 1 and November 30 inclusive shall pay a half year's dues.

C. Each member is obligated to pay all dues until he has resigned or been expelled, or has been excused from payment by the Board.

D. A member whose dues are in arrears, without satisfactory explanation to the Board, for 18 months shall be dropped from the Society.

E. A person shall be considered in good standing if his dues are remitted prior to the close of December 31, of the year for which such remittance is due, unless otherwise ruled by the Board.

BY-LAW III—NOMINATION AND ELECTION PROCEDURES

A. The nominating committee, as defined in Bylaw VIII, shall act at least six months prior to the annual meeting.

B. The nominating committee shall file its report with the Secretary, and it shall be published in the ILLINOIS ENGINEER at least five months prior to the annual meeting. Nominations by petition, signed by not less than fifty Corporate members, shall be filed with the Secretary not later than four months prior to the annual meeting.

C. Letter ballots with envelopes for returning marked ballots shall be mailed not later than three months before the annual meeting to all corporate members. Provisions shall be made on the ballot for write-in candidates for each office to be filled.

D. In order to be valid, ballots shall be returned to the Secretary in two sealed envelopes. The outer ballot envelope shall be marked BALLOT, bear the signature of the Corporate member and shall be delivered to the tellers unopened.

E. The polls shall close at 12:00 noon on the eighth Monday preceding the annual meeting. The ballots shall be counted by not less than three tellers appointed by the President. The candidate receiving the largest number of votes shall be declared elected. In case of a tie for any office the Corporate Members attending the annual meeting shall elect the officer from the persons so tied.

BY-LAW IV—ADMISSION & EXPULSION

A. Every application for admission shall be submitted to the Secretary of the Society and by him to the Board of Direction, which shall have power to admit the applicant and to assign his grade of membership.

B. Candidates for admission shall make application in writing on a printed form provided by the Society. Applications of persons qualified for a membership grade by registration need not bear references. All other applications shall bear references of at least three members in good standing, each of which must have a grade of membership at least as advanced as that of the applicant under consideration.

C. Student, Engineer-in-Training and Affiliate members shall be automatically transferred into advanced membership classification as soon as they have qualified for this change. The difference in dues for this advanced membership shall become payable upon the change and they shall be billed accordingly by the Society.

D. Names of candidates for honorary membership may be proposed either by the Board of Direction or by written petition to the Board, signed by not less than 100 Corporate Members. Names of candidates approved by the Board shall be submitted to the Corporate membership for election by letter ballot. Favorable votes of 2/3 of the members voting shall be required for election; however, to be elected, ballots shall have been received from at least 10% of the Corporate members.

E. A person who has been dropped from the Society because of delinquent dues may be readmitted by the Board of Direction, subject to payment of any fees required by the National Society.

F. The Board of Direction shall consider the expulsion of a person belonging to the Society and if circumstances appear to warrant action, the Board shall prepare confidential charges and shall submit them to the person. He may present a defense, either in person or in writing, to the Board of Direction at a meeting of which he shall receive due notice. Affirmative votes of two-thirds of the members of the Board present and voting shall be required to expel. If three-fourths of the Executive Committee of a Chapter recommend to the Board of Direction of the Society the expulsion of a person belonging to the Chapter, or if the State Committee on Ethics and Practice recommends to the Board the expulsion of a person belonging to the Society, the Board must proceed in accordance with the above provisions of this section. In case of expulsion the Board shall notify the person and the Society.

BY-LAW V—DUTIES OF OFFICERS

A. The President, Secretary, and Treasurer shall perform the duties usually pertaining to their offices. The President shall preside as Chairman of the Board of Direction and, subject to approval of the Board, shall appoint the committees as defined in Bylaw VIII and such other committees as the Board may deem necessary.

B. The 1st Vice President shall preside in the absence of the President and shall be administrative head of the Operations Group of Committees; the 2nd Vice President shall be the administrative head of the Professional Group of Committees; and the 3rd Vice President shall be the administrative head of the Public Relations Group of Committees.

C. The Secretary shall be the liaison officer between the Board and the Executive Director. The Secretary shall also be custodian of the property of the Society and shall deliver it to his successor.

He shall present a report on the affairs of the Secretary's office at the annual business meeting of the Society; he shall assure the proper recordings of the proceedings and discussions of the Annual Meeting, meetings of the Board of Direction and Executive Committee and shall check to assure that copies of them are prepared and distributed to the Board. He shall be ex officio librarian of the Society and as such shall collect and preserve all books, pamphlets, papers and documents belonging to the Society.

D. The Treasurer shall serve as Comptroller of the Society and as such shall countersign all checks for expenditures budgeted and approved by the Board of Direction. He shall be responsible for the accounts of the financial affairs of the Society and shall present an annual report of all receipts and disbursements at the annual meeting of the Society.

E. The Directors from this Society to NSPE and the Chairman of the Representatives from this Society to the Illinois Engineering Council shall represent the ISPE to those organizations and they shall reflect the views of the ISPE as expressed by the ISPE Board.

BY-LAW VI—DUTIES AND RESPONSIBILITIES OF THE EXECUTIVE DIRECTOR

A. An executive director may be retained by the Board of Direction as a full-time employee of the Society.

The duties of the executive director are as follows:

- (1) Manage the ISPE state office and conduct the routine business of the Society.
- (2) Manage the business affairs of the ILLINOIS ENGINEER, a monthly publication. Solicit articles, items of interest, and advertising for the magazine.
- (3) Supervise one or more assistants who are expected to perform the routine duties.
- (4) Develop programs of action, both within the Society and outside, which may be to the interest and welfare of the Society. This includes the development of programs for obtaining new members.
- (5) Coordinate the activities of local chapters and committees of the state organization.
- (6) Call attention of the proper officers, committee members and other members affected by the actions and requests of the National Society on the one hand and the state chapters on the other.
- (7) Present talks before various organizations explaining the broad field of professional engineering.
- (8) Call on industrialists, public utilities executives and other large employers of engineers to promote their interest and participation of their engineers in ISPE affairs.
- (9) Prepare articles, leaflets, and other literature expounding ISPE-NSPE principles.
- (10) Work with legislators, insofar as possible, so as to add the voice of the professional engineer to the record on bills that are of interest mutually to the public and the professional engineer.
- (11) Participate in the promotion of various educational and public relations activities such as Engineers' Week, refresher courses, vocational counseling, professional development and professional unity.
- (12) Arrange all details for meetings of the executive committee and the Board of Direction of the state society.
- (13) Record and distribute the minutes of meetings of the Board and the Executive Committee.
- (14) Maintain adequate records on other subjects.
- (15) Assist officers in performing their duties.

BY-LAW VII—BUSINESS PROCEDURE

A. All meetings of the Society shall be governed by "Robert's Rules of Order Revised."

B. The order of business shall be fixed by the Board of Direction.

BY-LAW VIII—COMMITTEES

A. Administrative Committees.

The following administrative committees of the Society shall be appointed by the President with the approval of the Board.

(1) Executive Committee

The Executive Committee shall consist of the President as chairman, and members as follows: The latest available past president, the three vice presidents, the secretary, the treasurer and one national director. The Executive Committee shall administer the business of the Society between Board meetings. Action of the Executive Committee must be submitted to the next Board meeting for approval.

(2) Honors and Awards Committee

The Honors and Awards Committee shall have not less than 5 members including a past president, a present or past national director, a current member of the Board of Direction, and two members each from different chapters. This committee shall act as adviser to the Board and to the chapters in establishing and administering honors and awards programs.

The Honors and Awards Committee shall recommend for approval of the Board:

- Candidates for consideration as honorary members.
- Candidates for receipt of the Illinois Award.
- Candidates for honors or awards approved by the Board.

(3) Nominating Committee

The Nominating Committee for the election of Society officers and representatives shall consist of not less than seven (7) National Members. One member shall be a past president of the Society, two members shall be members of the Board and not less than four additional members shall be officers of different Chapters. All members of the Nominating Committee shall be from different chapters. The Secretary shall instruct the committee of the offices to be filled.

B. Standing Committees

- (1) Standing Committees of the Society shall be organized under Operations, Professional and Public Relations groups with the designated vice president as the administrative head of each group. The following standing committees of the Society shall be appointed by the president subject to the approval of the Board. Each Committee shall have the power to appoint subcommittees.

Operations Group	Professional Group	Public Relations Group
Budget and Finance	Education	Building & Construction Codes
Chapter Activities	Employment Practices	Civil Defense
Constitution & By-laws	Ethics and Practice	Inter-Professional Relations
Functional Sections	Fees and Salaries	Publications
Membership	Legislation	Public Relations Resolutions
	Young Engineers	

- (2) Appointments shall be made for 3-year terms except initial appointments may be made for 1, 2 or 3 years in order to provide appointments in approximately equal numbers to any one committee each year.

- (3) Duties common to all standing committees shall include:
- Preparation of interim and annual reports.
 - Submission of all policy matters for approval of the Board before implementation of procedures recommended by the Committee.

- (4) The following outline of duties shall serve as a guide for individual committees:

C. Operations Group

(1) Budget and Finance Committee

The Budget and Finance Committee shall

- Prepare a budget for control of expenditures and money by the state society.

- Review from time to time expenditures being made and compare these with the approved budget.
- Study the financial structure of the Society and recommend ways and means for improving the financial condition of the Society.
- The Budget and Finance Committee shall consist of the First Vice President as Chairman ex officio, the President, the Treasurer, and one other member of the Board of Direction. This Committee shall prepare an annual budget which shall be presented for consideration by the Board of Direction prior to the beginning of each fiscal year and shall recommend revisions of the adopted budget when and as necessary. It shall advise the Board of Direction otherwise concerning the finances of the Society. It shall be responsible for the audit of the books of the Treasurer and shall report thereon to the Society at its annual business meeting.

(2) Chapter Activities Committee

The Chapter Activities Committee shall

- Encourage and assist chapters to undertake projects of interest to the state society as well as to individual chapters.
- Initiate, help to establish, and encourage new chapters.

(3) Constitution and Bylaws Committee

The Constitution and Bylaws Committee shall

- Maintain a continuing study of the constitution and bylaws and application of their provisions.
- Study carefully suggestions for revision and submit recommendations to the Board.
- Serve in an advisory capacity to the officers and committees of the Society in interpreting the provisions of the constitution and bylaws.
- Recommend specific specialized studies of the constitution and bylaws when deemed desirable.
- Advise the Board on constitutionality of proposed Chapter Constitutions and Bylaws and amendments thereto.

(4) Functional Sections Committee

The Functional Sections Committee shall

- Initiate, help to establish, and encourage new functional sections.
- Serve as adviser to functional sections.

(5) Membership Committee

The Membership Committee shall

- Promote ISPE before the entire profession in order to enlist endorsements, support and affiliation.
- Initiate, develop, and conduct membership campaigns.
- Cooperate with and advise chapters and their membership committees on effective methods for increasing membership.

D. Professional Group

(1) Education Committee

The Education Committee shall

- Develop and sponsor programs to improve teaching of mathematics and the physical sciences as well as general subjects in the secondary schools.
- Promote projects for counselling effectively students indicating interest in engineering.
- Cooperate with engineering colleges in promoting professional concepts among engineering students, including establishments of student chapters where the opportunity exists.
- Encourage superior graduates of engineering colleges to pursue graduate study in engineering.
- Promote higher standards for engineering colleges.
- Promote continuing education for engineers.

(2) Employment Practices Committee

The Employment Practices Committee shall

- a. Study procedures and policies governing employment of professional engineers and make recommendations.
- b. Study inter-relationships of state and federal laws governing labor relations and the employment of professional engineers.
- c. Advise the legislation committee on pending legislation affecting employment practices and labor relations.
- d. Study existing and future supply of and demand for professional engineers.
- e. Cooperate with other professions and other engineering organizations in improving employment practices for professional engineers.

(3) Ethics and Practice Committee

The Ethics and Practice Committee shall

- a. Recommend means to improve ethical standards within the profession.
- b. Recommend means to improve and protect economic and professional interests of the engineer.
- c. Investigate and recommend to the Board disciplinary action for members of the Society who have violated the codes of ethics of the state or the national society.
- d. Investigate and recommend action to the Board in cases of violation of legislative acts of the state regulating the practice of professional engineering, structural engineering or land surveying.

(4) Fees and Salaries Committee

The Fees and Salaries Committee shall

- a. Prepare fee and salary schedules for guidance of the members of the Society.
- b. Seek new and better methods for establishing charges for engineering services.
- c. Clarify for both client and engineer the detailed services to be provided by the engineer for the fees included in the engineering services contract.

(5) Legislation Committee

The Legislation Committee shall

- a. Study legislation affecting registration laws covering the practice of professional engineering, structural engineering and land surveying.
- b. Recommend support for legislation at the local and state levels which will enhance the professional standing of the engineer.
- c. Cooperate with other professions and with other engineering organizations in recommending support for or opposition to measures of mutual interest.
- d. Draft, initiate and sponsor legislation desired by the members and the Board of Direction of ISPE.

(6) Young Engineers Committee

The Young Engineers Committee shall

- a. Encourage and assist young engineers to develop professionally.
- b. Initiate special studies of problems facing young engineers.
- c. Recommend policies and actions which reflect the attitude of young engineers.
- d. Devise methods of interesting young engineers in professional society activities.

E. Public Relations Group

(1) Building and Construction Codes Committee

The Building and Construction Codes Committee shall

- a. Cooperate with other professional organizations in development of building and construction codes.

- b. Make recommendations for approval or disapproval of pending codes.

- c. Serve as advisers to local governments in interpretation and enforcement of building ordinances.

(2) Civil Defense Committee

The Civil Defense Committee shall

- a. Encourage, aid, and cooperate with other professional organizations in developing procedures and standards for adoption at the local and state levels.
- b. Study and encourage the utilization of professional engineers in appropriate positions in the civil defense organization.

(3) Inter-Professional Relations Committee

The Inter-Professional Relations Committee shall

- a. Promote cooperation among professional engineers, structural engineers, architects, contractors and other professions.
- b. Promote better understanding and cooperation among engineering societies.

(4) Publications Committee

The Publications Committee shall

- a. Exercise general direction over the publication, editorial and advertising policies of the ILLINOIS ENGINEER.
- b. Serve as consultant and adviser to officers and committees in planning, financing and editing all publications issued by the Society.

(5) Public Relations Committee

The Public Relations Committee shall

- a. Plan and conduct a continuing campaign through all recognized media to cultivate a better understanding of the engineering profession.
- b. Plan and conduct special programs during National Engineers' Week.
- c. Establish a speakers' bureau and promote talks by Society members.
- d. Promote appointments of professional engineers to public commissions and other organizations.

(6) Resolutions Committee

The Resolutions Committee shall

- a. Initiate, study, and recommend appropriate action on subjects of concern to the state society.
- b. Serve as adviser on resolutions submitted to the Board of Direction by the Chapters.

F. Other Committee Appointments

The President shall appoint all other committees that may be required or desirable. Members of all committees shall be in good standing in the Society at the time of their appointment.

BYLAW IX—FUNCTIONAL SECTIONS

A. Functional Sections may be organized in accordance with Article X of the Constitution.

B. Each Functional Section shall elect its own officers and shall be governed in accordance with the provisions of the Constitution adopted by the Functional Section.

C. Functional Sections shall hold at least one meeting per year at the time and place of the Annual Meeting of the Society. A copy of the minutes of every meeting of the section shall be submitted promptly to the Society Headquarters.

D. The Board of Direction shall have the power to dissolve a Functional Section whose activities are not conducted in accordance with the Constitution or the Constitution and Bylaws of the Functional Section.

THE ILLINOIS PROFESSIONAL ENGINEERING ACT

AN ACT to regulate the practice of Professional Engineering, and to repeal an Act to regulate the practice of Professional Engineering filed July 24, 1941, and to make an appropriation therefor.

(Approved July 20, 1945, as amended.)

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 1. In order to safeguard life, health and property, any person practicing or offering to practice professional engineering is required to submit evidence that he is qualified so to practice and to be registered as herein-after provided. It is unlawful for any person not so registered to practice or offer to practice professional engineering in this State, or to use in connection with his name or otherwise assume, use, or advertise any title or description implying that he is a Registered Professional Engineer.

Sec. 2. A person practices professional engineering, within the meaning of this Act, who plans or designs the physical parts of the following: railroads, railways, highway, subways, tunnels, canals, harbors, river improvements, docks and drydocks; levees; irrigation works; aircraft, air ports and landing fields; waterworks, sewers; sewage disposal works; plants for the generation of power; engines or motors for the utilization of power; boilers; refrigeration plants, air conditioning plants; heating plants; plants for the transmission or distribution of power; electrical plants which produce, transmit, distribute, or utilize electrical energy; works for the extraction of minerals from the earth; plants for the refining, alloying or treating of metal; chemical works and industrial plants involving the use of chemical and chemical processes.

Sec. 3. The practices and acts described in paragraphs 1 to 15 inclusive of this Section are exempt from the provisions of this Act:

1. The practice of structural engineering as defined in the "Illinois Structural Engineering Act."

2. The practice of architecture as defined in the "Illinois Architectural Act."

3. The engaging in the business of a licensed plumber as defined in "The Illinois Plumbing License Law," filed July 13, 1953, as amended.

4. The activities essential to the operation and maintenance of machinery, equipment and structures or of mechanics in the performance of their established functions;

5. The practice of a person not a resident of and having no established place of business in this State, practicing or offering to practice professional engineering when such practice does not exceed in the aggregate more than thirty days in any calendar year, if such person is legally qualified by registration to practice professional engineering in some other state or country in which the requirements and qualifications for obtaining a certificate of registration are not lower than those specified in this Act;

6. The practice of a person who has, within the last preceding year, become a resident, practicing or offering to practice professional engineering, and who has filed with the Department an application for a certificate of registration and has paid the fee required by this Act, if such person is legally qualified by registration to practice professional engineering in some other state or country in which the requirements and qualifications for obtaining a certificate of registration are not lower than those specified in this Act. Such practice shall be permitted only for such time as the Department requires for the consideration of the application for registration.

7. The work of an employee or a subordinate of a person holding a certificate of

registration under this Act, or an employee of a person practicing lawfully under paragraphs 5 or 6 of this Section; provided such work is done under the supervision of a person holding a certificate of registration under this Act or a person practicing lawfully under said paragraphs.

8. The practice of officers and employees of the Government of the United States while engaged within this State in the practice of the profession of engineering for said Government.

9. The execution of work as distinguished from the planning or design thereof, and the supervision of the construction of such work as a foreman or superintendent.

10. Services performed by employees of a company engaged in manufacturing operations, or by employees of laboratory research affiliates of such a manufacturing company, which is incidental to the manufacture, sales, and installation of the products of the company.

11. Inspection and service work done by employees of the State of Illinois, any political subdivision thereof or any municipality therein, and of insurance rating bureaus, insurance service bureaus, insurance companies or insurance agents.

12. The services performed by those ordinarily designated as chief engineer of plant operation, chief operating engineer, locomotive, stationary, marine, power plant or hoisting and portable engineers, or electrical maintenance or service engineers, or engineers employed in connection with street lighting, traffic control signals, police and fire alarm systems, water works, steam, electric, and sewage treatment and disposal plants, or the services ordinarily performed by any workman regularly employed as a locomotive, stationary, marine, power plant, or hoisting and portable engineer or electrical maintenance or service engineer for any corporation, contractor or employer.

13. The services performed by those persons ordinarily designated as supervising engineer or superintendent of power or supervising, electrical maintenance or service engineer who supervises the operation of, or who operates machinery or equipment, or who supervises construction or the installation of equipment within a plant which is under his own immediate supervision.

14. The services of superintendents, inspectors or foremen employed by the State of Illinois or any political subdivision thereof or municipal corporation therein, contractors or owners in the construction of engineering works or the installation of equipment.

15. The planning and designing of work incidental to plumbing and piping contracts.

Sec. 4. For the purpose of this Act:

"Professional Engineer" means a person who practices professional engineering as described in Section 2.

"Registered Professional Engineer" means a professional engineer registered under the provisions of this Act.

"Engineer-in-Training" means a person who is a candidate for registration as a Registered Professional Engineer and who has been enrolled as an Engineer-in-Training.

"Department" means the Department of Registration and Education.

"Director" means the Director of the Department of Registration and Education.

"Committee" means the Examining Committee provided for by this Act.

"Engineering College" means a school, college, university, department of a university or other educational institution, reputable and in good standing in accordance with rules prescribed by the Department, and which grants baccalaureate degrees in engineering.

(As amended by act approved June 16, 1953.)

Sec. 5. The Department shall exercise, subject to the provisions of this Act, the following

functions, powers and duties:

1. Conduct examinations to ascertain qualifications of applicants for certificate of registration as professional engineers, and upon the qualifications for enrollment as Engineer-in-Training and of applicants for local licenses, certificates and authorities;

2. Prescribe rules for a method of examination of applicants;

3. Prescribe rules and regulations determining what shall constitute an engineering college reputable and in good standing, and to determine whether or not an engineering college is reputable and in good standing by reference to a compliance with such rules and regulations, and to terminate the approval of an engineering college as reputable and in good standing for non-compliance with such rules provided that no engineering college requirements for graduation are below those of the College of Engineering of the University of Illinois, or which refuses admittance to applicants solely on account of race, color or creed shall be considered reputable and in good standing;

4. Conduct hearings on proceedings to refuse to issue, to suspend, revoke or renew licenses, certificates or authorities of persons applying for registration or registered under the provisions of this Act and refuse to issue, revoke or refuse to renew such licenses or certificates or authorities;

5. Maintain membership in and appoint delegates to the National Council of State Boards of Engineering Examiners;

6. Formulate rules as may be required to administer this Act.

None of the foregoing functions, powers and duties enumerated shall be exercised by the Department except upon the action and recommendation in writing of the Committee which shall be composed of persons designated by the Director to take such action and to make such report for the profession involved herein.

The action or report in writing of the majority of the Committee shall be sufficient authority upon which the Director may act. Whenever the Director is satisfied that substantial justice has not been done in an examination or hearing he may order a re-examination or a rehearing by the same Committee or a Special Committee consisting of five registered professional engineers, designated by the Director, each of whom has the qualifications required by Section 6.

Sec. 6. The Committee shall consist of registered professional engineers, appointed by the Director, each of whom shall be a professional engineer qualified for registration under this Act and in addition shall:

(1) be a citizen of the United States;

(2) be a resident of this State;

(3) have had not less than twelve years of experience in the practice of professional engineering;

(4) have been in charge of professional engineering work for at least five (5) years, provided that, for the purposes of this section any period in which a person has been in charge of engineering teaching with the rank of assistant professor, or higher, in an engineering college, shall be considered as time in which such person was in charge of professional engineering work.

(5) The first members of the Committee shall be appointed within sixty days after the Act becomes a law, to serve for the following terms: three members for one year, three members for two years, three members for three years, from the date of their appointment and until their successors are appointed and qualified. On the expiration of the term of any member, the Director shall appoint for a term of three years a Registered Professional Engineer having the qualifications required by Section 6 to take the place of the member whose term has expired, who shall hold office until

ation of the term for which he is appointed until his successor has been appointed qualified.

7. The records of the Department shall prima facie evidence of the proceedings of the Department set forth therein, and a transcript thereof certified by the Superintendent of Registration shall be admissible in evidence of the same force and effect as if the original were produced.

8. A roster showing the names and addresses of business of all professional engineers registered under this Act shall be prepared by the Department in August of each year. Two copies of this roster shall be placed on file with the Secretary of State, two copies thereof shall be on file with the Dean of the College of Engineering of the University of Illinois, and two copies thereof retained on file by the Department.

9. A person is qualified to receive a certificate of registration who is of good moral character and temperate habits, and who establishes that he has devoted a total of at least four years to study, training and experience in the theory and practice of professional engineering, and who has passed the examinations prescribed in Section 12.

10. An applicant who has acquired at least four years toward the required eight year period shall be permitted to take the first part of the prescribed examinations and if successful shall be enrolled as an Engineer-in-Training. The Engineer-in-Training enrollment shall be for a period of 10 years exclusive of any period of active military service in the Armed Forces of the United States. Upon completion of the required additional four years of professional experience, an Engineer-in-Training, upon payment of the required fee, shall be able to apply for the second part of the examination and if successful shall be issued a certificate of registration as a Professional Engineer. (As amended by act approved June 1953.)

11. In considering the qualifications of applicants:

The satisfactory completion of each one-third of the total hours of academic credit required for the awarding of a baccalaureate degree in engineering by an engineering college shall be considered as equivalent to one year of professional engineering experience, as required by Section 9; provided that undergraduate educational credit shall not be accepted in lieu of more than three years of professional engineering experience when such credit does result in the granting of a baccalaureate degree in engineering.

The satisfactory completion of each year of engineering study as a graduate student in the Graduate Department of an engineering college, subsequent to the earning of a baccalaureate degree in a field of professional engineering, shall be considered as equivalent to one year of professional engineering experience; provided that graduate educational credit shall be accepted in lieu of more than two years of professional engineering experience as required by Section 9.

Teaching professional engineering subjects in an engineering college shall be considered as experience in professional engineering.

12. Applications for registration shall be on forms prescribed and furnished by the Department, (b) contain statements made under oath showing the applicant's education and a detailed summary of his technical work, (c) contain not less than five references, of which three or more shall be professional engineers having personal knowledge of his professional engineering experience. The fee required for registration or for enrollment as an Engineer-in-Training as provided in Section 13, shall accompany the application. (As amended

by act approved June 16, 1953.)

Sec. 12. Examinations provided for by this Act shall be conducted under rules prescribed by the Department. Examinations shall be held not less frequently than semi-annually, at times and places prescribed by the Department, of which applicants shall be notified by the Department in writing.

2. Examinations of applicants who seek to practice professional engineering shall embrace the subjects required of candidates for a baccalaureate degree in engineering by the College of Engineering of the University of Illinois, and shall be such as will establish whether or not the applicant has the professional engineering experience required by Section 9.

Sec. 13. The Department shall issue a certificate of registration upon payment of the proper registration fee to any applicant who has satisfactorily met all of the requirements of this Act. The certificate of registration shall authorize the practice of "Professional Engineering," show the full name of the registrant, have a serial number, and be signed by the Director.

The Department shall enroll as an "Engineer-in-Training" any applicant who has passed the first part of the prescribed examination.

The issuance of a certificate of registration by the Department shall be prima facie evidence that the person named therein is entitled to all of the rights and privilege of a registered professional engineer, while the certificate remains unsuspended, unrevoked or unexpired.

Each registrant shall, upon registration, obtain a seal of the design authorized by the Department bearing the registrant's name and the legend, "Registered Professional Engineer of Illinois." Plans and specifications rendered as professional engineering services by a Registered Professional Engineer shall be stamped with such seal, during the life of the registrant's certificate, but it is unlawful for anyone to stamp or seal any documents with such a seal after the certificate of the registrant named thereon has expired or during any period in which his certificate is suspended or revoked. (As amended by act approved June 16, 1953.)

Sec. 14. Each Registered Professional Engineer who continues in active practice shall on or before July 1, 1957, and 1958 renew his certificate of registration and pay the required renewal fee. Every certificate of registration which has not been renewed on or before July 1, 1957, or 1958, or during the month of July, 1957 or 1958 shall expire on August 1 in that year. Each registered professional engineer who continues in active practice shall, beginning in the year 1959, renew his certificate of registration on or before July 1, 1959, and on or before July 1 of each odd numbered year thereafter and pay the required renewal fee. Every certificate of registration which is not renewed on or before July 1, 1959, or during the month of July, 1959, or on or before July 1 or in the month of July of any odd numbered year thereafter shall expire on August 1 in that year. A registered Professional Engineer whose certificate of registration has expired may have his certificate restored only upon payment of all lapsed renewal fees and also upon payment of the required restoration fee, provided that not more than five years have elapsed since the date of expiration.

Any Registered Professional Engineer who has permitted his certificate to expire for more than five years may have his certificate restored by making application to the Department and filing proof acceptable to the Department of his fitness to have his certificate of registration restored and by paying the required restoration fee. However, any registered professional engineer whose certificate of registration has expired while he was engaged (1) in federal service on active duty with the armed forces of the United States, including

the United States Merchant Marine, or (2) in training or education under the supervision of the United States preliminary to induction into the military service, may have his certificate of registration restored without paying any lapsed renewal fees or restoration fee or passing any examination, if within two years after termination of such service, training or education, other than by dishonorable discharge, he furnishes the Department with an affidavit to the effect that he was so engaged and that his service, training or education was so terminated.

The Director shall notify every registrant of the date of expiration of his certificate and the amount of the fee required for its renewal. The notice shall be mailed to the place of business last theretofore specified by the registrant in his last notification to the Department at least one month in advance of the expiration of the certificate. (As amended by an act approved July 6, 1957.)

Sec. 15. Any person who, at the effective date of this Act, is on active duty with the armed forces of the United States, including the United States Merchant Marine, or is in training or education under the supervision of the United States preliminary to induction into active military service, shall, at any time within two years after such active military service or such training or education is terminated, upon application therefor, and the payment of the registration fee as provided in Section 27, be entitled to receive a certificate of registration without oral or written examination, if he submits evidence, under oath, satisfactory to the Committee that he is of good moral character and temperate habits, was a resident of the State of Illinois, and that he was practicing professional engineering at the time of entering such service or training. (As amended by act approved July 9, 1951.)

Sec. 16. The Department shall, upon application therefor and upon the recommendation of the Committee and the payment of the required fee, issue a certificate of registration to any professional engineer who holds an unexpired certificate of registration issued to him by any State or Territory or Possession of the United States, or of any country, provided that (a) the requirements for the registration of professional engineers under which the certificate of registration was issued do not conflict with the provisions of this Act, (b) the requirements for the registration of professional engineers under which the certificate of registration was issued are substantially equal to those specified in Section 9 and (c) the particular State or Territory or Possession of the United States, or country extends similar privileges to persons registered under this Act.

Sec. 17. At any time within one year after this Act becomes effective the Department shall, upon application therefor, and the payment of the fee as provided for in Section 28, issue a certificate of registration to any applicant holding an unexpired certificate of registration as a Registered Structural Engineer or a Registered Architect issued by the State of Illinois.

After this Act has been in effect one year, the Department shall issue certificates of registration without examination only as provided for in Section 15 (2) or Section 16 hereof.

Sec. 18. The Department may either refuse to issue, or may suspend or revoke any certificate of registration or enrollment for any one, or any combination, of the following causes:

1. The practice of any fraud or deceit in obtaining or attempting to obtain a certificate of registration or enrollment;

2. Any gross negligence, incompetency or misconduct in the practice of professional engineering as a registered professional engineer or in working as an Engineer-in-Training;

3. Conviction of a felony;

4. Being declared insane by a court of competent jurisdiction and not thereafter having

been lawfully declared sane;

5. Failure to comply with any of the provisions of this Act or any of the rules of the Department pertaining thereto. (As amended by act approved June 16, 1953.)

Sec. 19. The Department may upon its own motion and shall upon the sworn complaint in writing of any person setting forth charges which, if proved, would constitute grounds for refusal, suspension or revocation of a certificate or enrollment as hereinabove set forth, investigate the actions of any person holding or claiming to hold a certificate, or enrollment.

The Department shall, before refusing to issue, suspending or revoking any certificate or enrollment, at least ten days prior to the date set for the hearing, notify the applicant or holder of the certificate or enrollment, in writing, of any charges made, and shall afford him an opportunity to be heard in person or by counsel in reference thereto.

Such notice may be served by its delivery personally to the accused person, or by mailing it by registered mail to the place of business last theretofore specified by the accused person in his last notification to the Department. At the time and place fixed in the notice, the Committee shall proceed to hearing of the charges and both the accused person and the complainant shall be accorded ample opportunity to present in person or by counsel, such statements, testimony, evidence and argument as may be pertinent to the charges or to any defense thereto. The Committee may continue such hearing from time to time. If the Committee is not sitting at the time and place to which the hearing has been continued, the Department may continue the hearing for a period not to exceed thirty days, and notice in writing shall be given to all parties in interest of the date and hour to which the hearing has been continued, and the place at which it is to be held. (As amended by act approved June 16, 1953.)

Sec. 20. The Department has power to subpoena and bring before it any person in this State and to take testimony, either orally or by deposition, or both, with the same fees and mileage and in the same manner as prescribed by law in judicial procedure in civil cases in courts of record of this State.

The Director, Assistant Director of the Department and any member of the Committee has power to administer oaths to witnesses at any hearing which the Department is authorized by law to conduct.

Sec. 21. Any circuit or superior court, or any judge thereof, upon the application of the accused person or complainant or of the Department, may, by order duly entered, require the attendance of witnesses and the production of relevant books and papers before the Department in any hearing relative to the application for or refusal, suspension or revocation of a certificate, and the court or judge may compel obedience to its or his order by proceedings for contempt.

Sec. 22. The Department, at its expense, shall provide a stenographer to take down the testimony and preserve a record of all proceedings at the hearing of any case wherein a certificate or enrollment is refused, revoked, or suspended. The notice of hearing, complaint and all other documents in the nature of pleadings and written motions filed in the proceedings, the transcript of testimony, the report of the Committee and the orders of the Department shall be the record of such proceedings. The Department shall furnish a transcript of such record to any person interested in such hearing upon payment thereof of twenty-five cents per hundred words for each original transcript and eight cents per one hundred words for each carbon copy thereof ordered with the original; provided, the charge for any part of such transcript ordered and paid for previous to the writing of the original record thereof shall be eight cents per hundred words. (As

amended by act approved June 16, 1953.)

Sec. 23. After the completion of any hearing under Section 19, the Committee shall present to the Director a written report of its findings and recommendations. A copy of the report shall be served upon the accused person, either personally or by mailing it by registered mail to the place of business last theretofore specified by the accused person in his last notification to the Department. Within twenty days after such service, the accused person may present to the Department his motion in writing for a rehearing, which motion shall specify the particular grounds therefor. The Committee shall consider any motion for a rehearing so filed and shall grant or deny such motion within twenty days after the receipt thereof by the Department. In case the motion for rehearing be granted, the Committee shall proceed as promptly as possible to consider the matters presented by such motion, and shall hold such further hearing or hearings, pursuant to the provisions of Section 19 so far as applicable, as the Committee shall deem advisable. Upon the completion of such rehearing, the Committee shall present to the Director a written report of its findings and recommendations on rehearing.

In the event no such motion for rehearing be filed, then upon the expiration of the time specified for filing a motion for rehearing, or in the event such motion be filed and denied, then upon such denial, the Director shall enter an order in accordance with the recommendations of the Committee. In the event such motion be filed and a rehearing granted, then upon receipt of the Committee's findings and recommendations on rehearing, the Director shall enter an order in accordance therewith.

If the accused person orders and pays for a transcript of the record the time elapsing thereafter and before the transcript is ready for delivery to him shall not be counted as part of such twenty days.

At the expiration of the time specified for filing a motion for a rehearing, the Director has the right to take the action recommended by the Committee. Upon the suspension or revocation of his certificate of registration or enrollment, a registrant shall be required to surrender his certificate of registration or enrollment to the Department, and upon his failure or refusal so to do, the Department has the right to seize it. (As amended by act approved June 16, 1953.)

Sec. 24. All final administrative decisions of the Department hereunder shall be subject to judicial review pursuant to the provisions of the "Administrative Review Act," approved May 8, 1945, and all amendments and modifications thereof, and the rules adopted pursuant thereto. The term "administrative decision" is defined as in Section 1 of the "Administrative Review Act."

Such proceedings for judicial review shall be commenced in the Circuit or Superior Court of the county in which the party applying for review resides; provided, that if such party is not a resident of this State, the venue shall be in Sangamon County.

The Department shall not be required to certify any record or file any answer or otherwise appear hereunder unless the party filing the complaint deposits with the clerk of the court the sum of five cents per hundred words representing costs of such certification. Failure on the part of the plaintiff to make such deposit shall be grounds for dismissal of the action. (Amended by Act approved July 30, 1949.)

Sec. 25. An order of refusal to issue, revocation or suspension, or a certified copy thereof, over the seal of the Department and purporting to be signed by the Director shall be prima facie proof that:

1. Such signature is the genuine signature of the Director;

2. Such Director is duly appointed and qualified;

3. The Committee and the members thereof are qualified to act;

(Amended by Act approved July 30, 1949.)

Sec. 26. Appeals from all final orders, judgments entered by a circuit or superior court in review of a final administrative decision of the Department may be taken directly to the Supreme Court by either party to the action and shall be governed by the rules applying to other civil cases appealed to the Supreme Court.

(Amended by Act approved July 30, 1949.)

Sec. 27. The fee to be paid by an applicant upon filing his application for registration, the complete examination, is required, shall be \$20; the fee to be paid by an applicant for Engineer-in-Training only shall be \$10; the fee to be paid by an Engineer-in-Training filing application for registration as a Professional Engineer shall be \$10. An applicant failing to pass an examination may apply for re-examination at the expiration of 6 months and will be re-examined without payment of additional fee. The fee to be paid for subsequent examinations to determine his fitness to receive a certificate of registration is \$10.

The fee to be paid by an applicant upon filing his application for registration under Section 15 is \$10.

The fee to be paid by an applicant upon filing his application for registration under Section 16 is \$10.

The fee to be paid for the renewal of a certificate of registration is \$3 each for the renewals in 1957 and 1958. For renewals thereafter the fee shall be \$6.

The fee to be paid for the restoration of a certificate of registration which has expired for not more than 5 years is \$5.

The fee to be paid for the restoration of a certificate of registration which has expired for more than 5 years is \$15.

The fee to be paid for the issuance of a duplicate certificate is \$5. (As amended by act approved July 6, 1957.)

Sec. 28. Each of the following is punishable by a fine of not less than 100 dollars, nor more than 500 dollars, or imprisonment in the county jail for a period of not exceeding three months or both;

1. The practice, or offer to practice, professional engineering in this State without a certificate of registration as a professional engineer;

2. The presenting, or attempting to use, his own, the certificate of registration or enrollment or the seal of another;

3. The submitting of false or forged evidence of any kind to the Department in obtaining a certificate of registration or enrollment;

4. The false impersonation of any other registrant or enrollee;

5. The use or attempted use of an expired, suspended, or revoked certificate of registration or enrollment;

6. The affixing of a Registered Professional Engineer's seal to any work which has not been done by, or under the personal supervision of, that Registered Professional Engineer;

7. The violation of any of the provisions of this Act. (As amended by act approved July 16, 1953.)

Sec. 29. No Professional Engineer shall practice either Structural Engineering as defined in the "Illinois Structural Engineering Act" or Architecture as defined in the "Illinois Architectural Act" unless he is registered pursuant to the provisions of either the "Illinois Structural Engineering Act" or the "Illinois Architectural Act."

Sec. 30. This Act may be known and cited as "The Illinois Professional Engineering Act."

Sec. 31. An Act entitled "An Act to regulate the practice of Professional Engineering" filed July 24, 1941, is hereby repealed.

Sec. 32. Appropriation.

THE ILLINOIS STRUCTURAL ENGINEERING ACT

Act to revise the law in relation to the practice of structural engineering—approved June 24, 1919.

Section 1. *Be it enacted by the People of the State of Illinois, represented in the General Assembly:* That it is unlawful for any person to practice, or to attempt to practice, structural engineering, without a certificate of registration as a registered structural engineer issued by the Department of Registration and Education, pursuant to the provision of this Act in relation to the civil administration of the State government, and to repeal certain therein named," approved March 7, 1917, and July 1, 1917.

Sec. 1. It shall be lawful, however, for a corporation to prepare drawings, plans and specifications of buildings and structures, as defined in section 2 of this Act, which are constructed, erected, built or their construction supervised by the corporation, if the chief executive officer or managing agent of the corporation in this State is a registered structural engineer. One or more registered structural engineers may lawfully enter into partnership with one or more registered architects.

Sec. 2. A person shall be regarded as practicing structural engineering within the meaning of this Act who is engaged in the designing or supervising of the construction, enlargement, or alteration of structures, or any part thereof, for others, to be constructed by persons other than himself. Structures within the meaning of this Act are all structures having essential features, foundations, columns, beams, trusses, arches and beams, with or without other parts, and in which safe design and construction require that loads and stresses be computed and the size and strength of members determined by mathematical calculations and upon scientific principles and engineering data. A person shall also be regarded as practicing structural engineering within the meaning of this Act who is engaged as a principal in the designing and supervision of the construction of structures or of the structural members of edifices designed solely for the generation of electricity; or for the hoisting, cleaning or storing of coal, cement, sand, gravel or similar materials; elevators; manufacturing plants; docks; bridges; blast furnaces; rolling mills; gas producers and smelters; smelters; dams; reservoirs; waterworks; sanitary works as applied to the purification of water; plants for waste and sewage disposal; round houses for locomotives; railroad shops; pumping or power stations for drainage districts; or power houses, even though such structures may come within the definition of "buildings" as defined in any Act in force in this State relating to the regulation of the practice of architecture.

Sec. 3. The following persons are exempt from the operation of this Act:

(a) Draftsmen, students, clerks of work, superintendents and other employees of registered structural engineers when acting under the immediate personal supervision of their employers;

(b) Superintendents of construction in the employ of the owner when acting under the immediate personal supervision of the registered structural engineer who has prepared the drawings and specifications;

(c) Any person, mechanic or builder, when preparing plans or specifications for, or supervising the construction, enlargement or alteration of any structure or building which is to be constructed by himself, or his employees, or for his own use.

Persons registered to practice structural engineering in this State are exempt from the operation of any Act in force in this State relating to the regulation of the practice of architecture.

Sec. 3-a. The Department of Registration and Education shall exercise, but subject to the provisions of this Act, the following functions, powers and duties:

(1) Conduct examinations to ascertain the qualifications and fitness of applicants for certificates of registration as registered structural engineers, and pass upon the qualifications of applicants for reciprocal licenses, certificates and authorities.

(2) Prescribe rules and regulations for a method of examination of candidates.

(3) Prescribe rules and regulations defining what shall constitute a school, college or university or department of a university, or other institution, reputable and in good standing and to determine the reputability and good standing of a school, college or other institution reputable and in good standing by reference to a compliance with such rules and regulations; provided that no school, college or university, or department of a university or other institution that refuses admittance to applicants, solely on account of race, color or creed shall be considered reputable and in good standing.

(4) Establish a standard of preliminary education deemed requisite to admission to a school, college or university, and to require satisfactory proof of the enforcement of such standard by said schools, colleges and universities.

(5) Conduct hearings on proceedings to revoke or refuse renewal of licenses, certificates or authorities of persons applying for registration or registered under the provisions of this Act and to revoke or refuse to renew such licenses or certificates or authorities.

(6) Formulate rules and regulations when required in any Act to be administered.

None of the foregoing functions, powers or duties enumerated shall be exercised by the Department of Registration except upon the action and report in writing of the Committee designated by the Director, which shall be composed of persons designated from time to time by the Director of Registration and Education to take such action and to make such report for the profession involved herein, as follows:

Five (5) persons, one of whom shall be a professor in the civil engineering department of the University of Illinois, and the others of whom shall be structural engineers of recognized standing, who have had not less than ten years practical experience, then practicing as structural engineers in this State.

The action or report in writing of a majority of the Committee shall be sufficient authority upon which the Director of Registration and Education may act.

In making the designation of persons to act, the Director shall give due consideration to recommendations by members of the profession and by organizations therein.

Whenever the Director is satisfied that substantial justice has not been done in an examination, he may order a re-examination by the same or other examiners. (Added by Act approved July 10, 1935.)

Sec. 4. A person is qualified to receive a certificate of registration as a registered structural engineer:

(a) Who is at least twenty-one years of age;

(b) Who is of good moral character and temperate habits;

(c) Who proves either:

(1) That on July 5, 1915, he was actually engaged in the practice of structural engineering in this State and did not apply by January 5, 1916, for a license without examination as was then provided for by law. In this case, such an applicant shall be entitled to an examination to determine his fitness to receive a certificate of registration as a registered structural engineer without regard to the number of years he has practiced structural engineering; or

(2) That within ten years immediately preceding his application for a certificate of registration under this Act, he has practiced structural engineering in another State or territory of the United States, or in a foreign country or province, for not less than six years, during at least two of which years he has been in responsible charge of structural engineering work as a principal or an assistant; or

(3) That within ten years immediately preceding his application for a certificate of registration under this Act he has pursued a course of study and training in the theory and practice of structural engineering covering at least the subjects normally taught in schools of structural engineering approved by the Department of Registration and Education, for a period of not less than six years, in the employ

of or under the immediate personal supervision of one or more practicing structural engineers; during at least two of which years, he has been in charge of work in designing or construction in the employ of, or under the immediate personal supervision of a practicing structural engineer. Every applicant who shall have graduated from a school of structural engineering approved by the Department of Registration and Education, requiring a course of study of not less than four school years of at least thirty weeks in each year, shall be credited with two years upon the required six year period. The Department of Registration and Education may, in its discretion, adopt regulations providing for credit of not to exceed two years upon the required six year period for an applicant who has pursued a course of instruction in a school of structural engineering approved by the Department of Registration and Education, but who has not graduated; and

(d) Who has passed an examination conducted by the Department of Registration and Education to determine his fitness to receive a certificate of registration as a registered structural engineer.

Sec. 5. Every person who desires to obtain a certificate of registration shall apply therefor to the Department of Registration and Education, in writing, upon blanks prepared and furnished by the Department of Registration and Education. Each application shall contain proof of the particular qualifications required of the applicant, shall be verified by the applicant under oath, and shall be accompanied by the required fee.

Sec. 6. The Department of Registration and Education shall hold examinations of applicants for certificates of registration as registered structural engineers at such times and places as it may determine.

The examination of applicants for certificates of registration as registered structural engineers may consist of written and oral tests and shall embrace the subjects normally taught in schools of structural engineering approved by the Department of Registration and Education.

Sec. 7. Whenever the provisions of this Act have been complied with the Department of Registration and Education shall issue a certificate of registration as a registered structural engineer.

Any license or certificate of registration heretofore issued under the laws of this State authorizing its holder to practice structural engineering shall, during the unexpired period for which it was issued, serve the same purpose as a certificate of registration provided for by this Act.

Sec. 8. Every holder of a certificate of registration shall display it in a conspicuous place in his principal office, place of business or employment.

Every registered structural engineer shall have a seal, the impression of which shall contain the name of the structural engineer, his place of business, and the words, "Registered Structural Engineer," "State of Illinois." A seal obtained prior to July 1, 1919, however, may bear the words, "Licensed Structural Engineer," "State of Illinois." He shall stamp with this seal all plans, drawings and specifications prepared by him or under his supervision.

Sec. 9. Every registered structural engineer who continues in active practice shall on or before the first day of July of each even numbered year renew his certificate of registration and pay the required renewal fee. Every certificate of registration which has not been renewed during the month of July in any even numbered year shall expire on the first day of August in that year. A registered structural engineer whose certificate of registration has expired may restore his certificate only upon payment of the required restoration fee.

Any registered structural engineer who retires from the practice of structural engineering for not more than 5 years may renew his certificate of registration upon payment of all lapsed renewal fees.

However, any registered structural engineer whose certificate of registration has expired while he has been engaged (1) in federal serv-

ice on active duty with the Army of the United States, the United States Navy, the Marine Corps, the Coast Guard, or the State Militia called into the service or training of the United States of America, or (2) in training or education under the supervision of the United States preliminary to induction into the military service, may have his certificate of registration restored without paying any lapsed renewal fees or restoration fee or passing any examination, if within 2 years after termination of such service, training or education other than by dishonorable discharge he furnishes the Department with an affidavit to the effect that he has been so engaged and that his service, training or education has been so terminated. (As amended by Act approved July 6, 1957.)

Sec. 10. The Department of Registration and Education may either refuse to issue, or may refuse to renew, or may suspend, or may revoke, any certificate of registration for any one, or any combination, of the following causes:

(a) The obtaining of, or an attempt to obtain, a certificate of registration, or the renewal thereof, or practice in the profession, or money, or any other thing of value, by fraudulent misrepresentation, or the perpetration of fraud in the practice of structural engineering;

(b) Gross incompetency;

(c) Recklessness in the construction or supervision of the construction of buildings or structures;

(d) The affixing of a registered structural engineer's seal to any plans, specifications or drawings which have not been prepared by or under the immediate personal supervision of that registered structural engineer.

The Department may upon its own motion and shall upon the verified complaint in writing of any person setting forth facts which if proven would constitute grounds for refusal, suspension or revocation as hereinabove set forth, investigate the actions of any person holding or claiming to hold a certificate. The Department shall, before refusing to issue, suspending or revoking any certificate, at least ten (10) days prior to the date set for the hearing, notify in writing the applicant or the holder of such certificate of any charges made and shall afford such accused person an opportunity to be heard in person or by counsel in reference thereto. Such written notice may be served by delivery of the same personally to the accused person, or by mailing the same by registered mail to the place of business last theretofore specified by the accused person in his last notification to the Department. At the time and place fixed in the notice, the Committee designated by the Director of Registration and Education, as provided in this Act, shall proceed to hearing of the charges and both the accused person and the complainant shall be accorded ample opportunity to present in person or by counsel, such statements, testimony, evidence and argument as may be pertinent to the charges or to any defense thereto. The Committee may continue such hearing from time to time. If the Committee shall not be sitting at the time and place fixed in the notice or at the time and place to which hearing shall have been continued, the Department shall continue such hearing for a period not to exceed thirty (30) days. (As amended by Act approved July 10, 1935.)

Sec. 10-a. The Department shall have power to subpoena and bring before it any person in this State and to take testimony either orally or by deposition, or both, with the same fees and mileage and in the same manner as prescribed by law in judicial procedure in civil cases in courts of this State.

The Director, Assistant Director, Superintendent of Registration and any member of the Committee designated by the Director shall each have power to administer oaths to witnesses at any hearing which the Department is authorized by law to conduct, and any other oaths required or authorized in any Act administered by the Department. (Added by Act approved July 10, 1935.)

Sec. 10-b. Any circuit or superior court or any judge thereof, either in term time or vacation, upon the application of the accused person or complainant or of the Department, may, by order duly entered, require the attendance

of witnesses and the production of relevant books and papers before the Department in any hearing relative to the application for or refusal, recall, suspension or revocation of certificates of registration, and the court or judge may compel obedience to its or his order by proceedings for contempt. (Added by Act approved July 10, 1935.)

Sec. 10-c. The Department, at its expense, shall provide a stenographer to take down the testimony and preserve a record of all proceedings at the hearing of any case wherein a certificate is revoked or suspended. The notice of hearing, complaint and all other documents in the nature of pleadings and written motions filed in the proceedings, the transcript of testimony, the report of the Committee and the orders of the Department shall be the record of such proceedings. The Department shall furnish a transcript of such record to any person interested in such hearing upon payment thereof of twenty-five cents per one hundred words for each original transcript and eight cents per one hundred words for each carbon copy thereof ordered with the original: Provided, that the charge for any part of such transcript ordered and paid for previous to the writing of the original record thereof shall be eight cents per hundred words. (Added by Act approved July 10, 1935.)

Sec. 10-d. The Committee shall present to the Director its written report of its findings and recommendations. A copy of such report shall be served upon the accused person, either personally or by registered mail as provided in this act for the service of the citation. Within twenty (20) days after such service, said accused person may present to the Department his motion in writing for a rehearing, which written motion shall specify the particular grounds therefor. If said accused person shall order and pay for a transcript of the record as provided in this section, the time elapsing thereafter and before such transcript is ready for delivery to him shall not be counted as part of such twenty days.

Whenever the Director is satisfied that substantial justice has not been done, he may order a rehearing by the same or another special committee. At the expiration of the time specified for filing a motion for a rehearing, the Director shall have the right to take the action recommended by the Committee. Upon the suspension or revocation of his certificate of registration, a registrant, shall be required to surrender his certificate of registration to the Department, and upon his failure or refusal so to do, the Department shall have the right to seize the same. (Added by Act approved July 10, 1935.)

Sec. 10-e. At any time after the suspension or revocation of any certificate, the Department may restore it to the accused person without examination, upon the written recommendation of the Committee designated by the Director. (Added by Act approved July 10, 1935.)

Sec. 10-f. All final administrative decisions of the Department hereunder shall be subject to judicial review pursuant to the provisions of the "Administrative Review Act," approved May 8, 1945, and all amendments and modifications thereof, and the rules adopted pursuant thereto. The term "administrative decision" is defined as in Section 1 of the "Administrative Review Act."

Such proceedings for judicial review shall be commenced in the Circuit or Superior Court of the County in which the party applying for review resides; provided, that if such party is not a resident of this State, the venue shall be in Sangamon County.

The Department shall not be required to certify any record or file any answer or otherwise appear hereunder unless the party filing the complaint deposits with the clerk of the court the sum of five cents per hundred words representing costs of such certification. Failure on the part of the plaintiff to make such deposit shall be grounds for dismissal of the action. (As amended by Act approved July 23, 1949.)

Sec. 10-g. An order of revocation or suspension or a certified copy thereof, over the seal of the Department and purporting to be signed by the Director shall be prima facie proof that

1. Such signature is the genuine signature of the Director.

2. That such Director is duly appointed and qualified.

3. That the Committee and the members thereof are qualified to act.

Such proof may be rebutted. (As amended by Act approved July 23, 1949.)

Sec. 10-h. Appeals from all final orders and judgments entered by a Circuit or Superior Court in review of a final administrative decision of the Department may be taken directly to the Supreme Court by either party to the action and shall be governed by the rules applying to other civil cases appealed to the Supreme Court. (As amended by Act approved July 23, 1949.)

Sec. 10-i. Repealed. (Act approved July 23, 1949.)

Sec. 11. Upon payment of the required fee, an applicant who is a structural engineer, registered or licensed under the laws of another State or territory of the United States, or of a foreign country or province, may, without examination, be granted a certificate of registration as a registered structural engineer by the Department of Registration and Education in its discretion upon the following conditions:

(a) That the applicant is at least twenty-one years of age, of good moral character, and of temperate habits; and

(b) That the requirements for the registration or licensing of structural engineers in a particular State, territory, country or province were, at the date of the license, substantially equal to the requirements then in force in this State.

Sec. 12. The fee to be paid by an applicant for an examination to determine his fitness to receive a certificate of registration as a registered structural engineer is \$10.

The fee to be paid by an applicant for a certificate of registration as a registered structural engineer is \$5.

The fee to be paid by an applicant for an examination to determine his preliminary examination is \$5.

The fee to be paid for the restoration of an expired certificate of registration is \$5.

The fee to be paid upon renewal of a certificate of registration is \$10.

The fee to be paid by an applicant for a certificate of registration who is a structural engineer registered or licensed under the laws of another state or territory of the United States or a foreign country or province, is \$15. (As amended by Act approved July 6, 1957.)

Sec. 13. Repealed by Act approved July 23, 1949.

Sec. 14. Each of the following acts constitutes a misdemeanor, punishable upon conviction by a fine of not less than \$25.00 nor more than \$200.00.

(a) The practice of structural engineering or an attempt to practice structural engineering, without a certificate of registration as a registered structural engineer; each day practicing structural engineering, or attempting to practice structural engineering, without a certificate of registration as a registered structural engineer shall constitute a separate offense.

(b) The making of any wilfully false oath or affirmation whenever an oath or affirmation is required by this Act; or

(c) The affixing of a registered structural engineer's seal to any plans, specifications or drawings which have not been prepared by him or under his immediate personal supervision;

(d) The violation of the provisions of section 8 of this Act.

All fines and penalties shall inure to the Department of Registration and Education.

Sec. 15. The Department of Registration and Education shall keep a record, which shall be open to public inspection at all reasonable times, of its proceedings relating to the issuance, refusal, renewal, suspension and revocation of certificates of registration. This record shall also contain the name, number, place of business and residence, and the date and number of the certificate of registration of each registered structural engineer in this State.

Sec. 16. "An Act to provide for the licensing of structural engineers," approved July 5, 1911, in force July 5, 1915, is repealed.

Sec. 17. This Act may be known and cited as "The Illinois Structural Engineering Act."

THE ILLINOIS LAND SURVEYORS ACT

Act to afford protection to the public by prescribing and regulating the practice of Land Surveying by registration, and to repeal an Act therein named. Approved July 19, 1939.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

SECTION 1. It is unlawful for any person to practice or attempt to practice land surveying without a certificate of registration as a registered land surveyor, issued by the Department of Registration and Education.

Sec. 2. Any one or any combination of the following practices constitutes the practice of land surveying:

(1) Surveying and measuring the area of any portion of the earth's surface, the lengths and directions of the boundary lines, and the contour of the surface for their correct determination and description, and for conveyance; or for recording or for establishing or establishing, locating, defining and making or monumenting land boundaries or lines and the platting of lands and subdivisions thereof; or

(2) Preparing and vouching for the accuracy of a map or plat showing such land boundaries or lines and the marks and monuments hereto, or map or plat of a subdivision or partition of land for the purpose of making the same an instrument of public record; or

(3) Executing and issuing plats establishing one or more corners or boundaries of any tract or lot of land and signing therefor as a surveyor.

Sec. 3. The Department shall exercise in its name, but subject to the provisions of this Act, the following powers:

(1) Conduct examinations to ascertain the qualifications and fitness of applicants for certificates of registration as registered land surveyors, and pass upon the qualifications of applicants for reciprocal certificates.

(2) Prescribe rules and regulations for a fair and wholly impartial method of examination of candidates.

(3) Conduct hearings on proceedings to refuse to issue, revoke or suspend certificates of registration.

(4) To prescribe forms of application blanks and certificates of registration.

(5) Formulate rules and regulations when required for the administration and enforcement of this Act.

None of the foregoing functions, powers or duties enumerated shall be exercised by the Department of Registration and Education except upon the action and report in writing of the Examining Committee which shall be composed of persons designated from time to time by the Director of Registration and Education to take such action and to make such report for the profession involved herein as follows:

The Committee shall be composed of three persons of generally recognized ability and standing as land surveyors and not connected with any college or university, residents of this State, who have been engaged in the actual field of practice of land surveying for at least

ten (10) years.

The action or report in writing of a majority of the committee designated shall be sufficient authority upon which the Director of Registration and Education may act.

In making the designation of persons to act, the Director shall give due consideration to recommendations by members of the profession and by organizations therein.

Whenever the Director is satisfied that substantial justice has not been done either in an examination or in the revocation or suspension of a certificate, he may order re-examinations or hearings by the same or other examiners.

Sec. 4. A person is qualified to receive a certificate of registration as a registered land surveyor:

(a) Who is at least twenty-one years of age, and

(b) Who is a citizen of the United States, and

(c) Who is of good moral character and temperate habits, and

(d) Who has graduated from a high school or secondary school approved by the Department of Registration and Education, or who has completed an equivalent course of study as determined by an examination conducted by the Department of Registration and Education, and

(e) Who has had five (5) years' experience in the practice of land surveying as an employee or principal, and

(f) Who has passed an examination conducted by the Department of Registration and Education to determine his fitness to receive a certificate of registration as a registered Land Surveyor.

Sec. 5. Every person who desires to obtain a certificate of registration shall apply to the Department of Registration and Education, in writing, upon blanks prepared and furnished by the Department of Registration and Education. Each application shall contain proof of the particular qualifications required of the applicant, shall be verified by the applicant, under oath, and shall be accompanied by the required fee.

Sec. 6. The Department of Registration and Education shall hold examinations for applicants for certificates of registration as registered Land Surveyors at such times and places as it may determine.

The examination of applicants for certificates of registration as registered Land Surveyors may include both practical demonstrations and written and oral tests. Each applicant shall be examined as to his knowledge of the Statutes of the United States of America and of the State of Illinois relating to land surveys, the subdivision of land, practical surveying and of mathematics as applied to land surveying.

Sec. 7. Whenever the provisions of this Act have been complied with, the Department of Registration and Education shall issue a certificate of registration as a registered Land Surveyor.

Any certificate of registration heretofore issued by the Department of Registration and Education, authorizing its holder to practice

surveying as a registered land surveyor, shall serve the same purpose as the certificate of registration as a registered land surveyor provided for by this Act.

Sec. 8. Upon payment of the required fee an applicant who is a land surveyor, registered or licensed or otherwise legally recognized as a land surveyor under the laws of another state or territory of the United States may, without examination, be granted a certificate of registration as an Illinois Land Surveyor by the Department in its discretion, upon the following conditions:

(1) That the requirements for the registration or licensing or other legal recognition of land surveyors in the particular state, or territory, were, at the date of the license or certificate, substantially equal to the requirements in force in this State; and

(2) That the particular state, or territory, extends a similar privilege to the persons registered under this Act.

Sec. 9. Upon payment of the required fee the Department of Registration and Education shall issue, without examination, a certificate of authority to engage in the practice of land surveying as a registered land surveyor to any partnership which makes application therefor in writing if all the members thereof hold certificates of registration as registered land surveyors, issued by the Department.

Sec. 10. Every holder of a certificate of registration as a registered land surveyor shall display it in a conspicuous place in his principal office, place of business or place of employment.

Every registered Land Surveyor shall have a seal, the impression of which shall contain the name of the land surveyor, and the words "Registered Land Surveyor", "State of Illinois" with which he shall stamp all documents prepared by him or under his supervision. Any seal heretofore authorized or approved by the Department of Registration and Education shall serve the same purpose as the seal provided for by this Act.

Sec. 11. Every registered Land Surveyor who continues in active practice shall, annually, on or before the first day of September, renew his certificate of registration and pay the required renewal fee. Every certificate of registration and every certificate of authority which has not been renewed on or before the first day of September or during the month of September shall expire on the first day of October in that year. A registered Land Surveyor whose certificate of registration or certificate of authority has expired may have his certificate restored only upon payment of all lapsed renewal fees and also upon payment of the required restoration fee, provided, however, not more than five (5) years have elapsed since the date of expiration.

Any registered Land Surveyor who has permitted his certificate of registration to expire for more than five (5) years, may have his certificate restored by making application to the Department and filing proof acceptable to the Department of his fitness to have his certificate of registration restored and by paying the required restoration fee.

However, any registered land surveyor whose

certificate of registration expired while he was engaged (1) in federal service on active duty with the army of the United States, the United States Navy, the Marine Corps, the Coast Guard, or the State Militia called into the service or training of the United States of America, or (2) in training or education under the supervision of the United States preliminary to induction into the military service, may have his certificate of registration renewed without paying any lapsed renewal or restoration fees or without passing any examination, if within two years after the termination of such service, training or education other than by dishonorable discharge, he furnishes the Department with an affidavit to the effect that he was so engaged and that his service, training or education has so terminated. (Amended by Act approved July 18, 1947.)

Sec. 12. The Department may either refuse to issue, or may suspend, or may revoke any certificate of registration for any one, or any combination of the following causes:

- (a) Conviction of a felony, as shown by a certified copy of the record of conviction;
- (b) Conviction of any crime, an essential element of which is dishonesty or fraud;
- (c) Proof of certifying to any false or fraudulent certificate attached to a map or plat of survey;
- (d) Proof of gross carelessness or incompetence in performing services described in Section 2.
- (e) Violation of any of the provisions of this Act.

Sec. 13. Certificates of registration issued under the provisions of this Act may be revoked or suspended, or applications for certificates of registration may be refused, in the manner hereinafter set forth. The Department may, upon its own motion, and shall, upon the verified complaint in writing of any person setting forth facts which, if proven, would constitute grounds for refusal to issue or restore, or for suspension or revocation as hereinabove set forth, investigate the actions of any person holding, applying for or claiming to hold a certificate. The Department shall, before refusing to issue or restore, or before suspending or revoking any certificate and at least ten days prior to the date set for the hearing, notify the person accused in writing, of any charges made and shall afford said accused person an opportunity to be heard in person or by counsel in reference thereto. Such written notice may be served by delivery of same personally to the accused person or by mailing same by registered mail to the place of business last theretofore specified by said accused person in his last notification to the Department. At the time and place fixed in the notice, the committee shall proceed to a hearing of the charges and both the accused person and the complainant shall be accorded ample opportunity to present in person, or by counsel, such statements, testimony, evidence and argument as may be pertinent to the charges or to any defense thereto. The committee may continue such hearing from time to time. If the committee shall not be sitting at the time and place fixed in the citation or at the time and place to which a hearing shall have been continued, the Department shall continue such hearing for a period not to exceed thirty (30) days.

Sec. 14. Repealed. (Act approved August 2, 1949.)

Sec. 14.01. All final administrative decisions of the Department hereunder shall be subject to judicial review pursuant to the provisions of the "Administrative Review Act", approved May 8, 1945, and all amendments and modifications thereof, and the rules adopted pursuant thereto. The term "administrative decision" is defined as in Section 1 of the "Administrative Review Act." (Added by act approved Aug. 2, 1949.)

Sec. 14.02. The Department shall not be required to certify any record or file any answer or otherwise appear in any proceeding for judicial review unless the party filing the complaint deposits with the clerk of the court the sum of five cents per hundred words representing costs of such certification. Failure on the part of the plaintiff to make such deposit shall be grounds for dismissal of the action. (Added by act approved Aug. 2, 1949.)

Sec. 14.03. An order of refusal to issue, revocation or suspension, or a certified copy thereof, over the seal of the Department and purporting to be signed by the Director, shall be prima facie proof that

1. Such signature is the genuine signature of the Director.
2. That such Director is duly appointed and qualified.
3. That the committee and the members thereof are qualified to act. Such proof may be rebutted. (Added by act approved Aug. 2, 1949.)

Sec. 14.04. Appeals from all final orders and judgments entered by a Circuit or Superior Court in review of a final administrative decision of the Department may be taken directly to the Supreme Court by either party to the action and shall be governed by the rules applying to other civil cases appealed to said Supreme Court. (Added by act approved August 2, 1949.)

Sec. 15. The fee to be paid by an applicant upon filing his application for registration as a registered land surveyor shall be fifteen dollars (\$15.00).

The fee to be paid for the renewal of a certificate of registration or a certificate of authority as a registered land surveyor shall be two dollars (\$2.00).

The fee to be paid for the restoration of a certificate of registration or a certificate of authority which has expired for not more than five (5) years shall be five dollars (\$5.00).

The fee to be paid for the restoration of a certificate of registration or a certificate of authority which has expired for more than five (5) years shall be fifteen dollars (\$15.00).

The fee to be paid by an applicant for a certificate of registration who is a land surveyor registered or licensed under the laws of another State or territory of the United States shall be fifteen dollars (\$15.00).

The fee to be paid by an applicant for the second examination or subsequent examinations to determine his fitness to receive a certificate of registration as a registered land surveyor shall be ten dollars (\$10.00).

The fee to be paid for the issuance of a duplicate certificate or a certificate in a new name shall be five dollars (\$5.00).

The fee to be paid by an applicant for an examination to determine his preliminary education shall be five dollars (\$5.00).

Sec. 16. Each of the following Acts is a misdemeanor punishable, upon conviction, by a fine of not less than one hundred dollars (\$100.00) nor more than one thousand dollars (\$1,000.00) or by imprisonment in the county jail for not more than six months, or by both such fine and imprisonment:

(a) The obtaining or attempting to obtain a certificate of registration by fraud;

(b) The use of the title "Illinois Land Surveyor" or the abbreviation "I. L. S." or the words or letters indicating he is a registered land surveyor, by any person who has not received a certificate of registration or authority to practice as an Illinois Land Surveyor.

(c) The practice or attempt to practice land surveying without a certificate of registration or authority to practice as an Illinois Land Surveyor. (Added by act approved July 8, 1953.)

Sec. 17. All plats and certificates thereto used by a registered land surveyor under his hand and seal shall be received as prima facie evidence in all courts in this State. He shall be entitled to have his plats recorded in the county wherein the land affected thereby lies provided, however, that if the said plats are plats of subdivision or dedication (and not otherwise) the same shall be subject to any statutory provision relating to the approval, recording and filing of plats of subdivision or dedication.

Sec. 18. The Department of Registration and Education shall at least annually publish a list of the names of all registered land surveyors who are in good standing as of the date such list is prepared for publication, together with such other information relative to the enforcement of the provisions of this Act as it may deem of interest to the public. One of such lists shall be mailed to the County Clerk of each county in the State and shall be held by said County Clerk as a public record. Such lists shall also be mailed by the Department to any person in the State upon request.

Sec. 19. If any section, subsection, sentence, clause, phrase, or requirement of this Act for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portion of this Act. The legislature hereby declares that it would have passed this Act, and each section, subsection, sentence, clause, phrase, and requirement thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses, phrases, or requirements be declared unconstitutional.

Sec. 20. An Act entitled "An Act to provide for the registration of land surveyors" filed July 21, 1937, is repealed.

Sec. 21. This Act may be known and cited as "The Illinois Land Surveyors Act."

December 7, 1961	1. University of Illinois 2. Illinois Institute of Technology 3. Department's Chicago office - 160 N. LaSalle
May 3, 1962	1. University of Illinois 2. Illinois Institute of Technology 3. Department's Chicago office - 160 N. LaSalle
December 6, 1962	1. University of Illinois 2. Illinois Institute of Technology 3. Department's Chicago office - 160 N. LaSalle

Applicants for the Engineer-in-Training examination must file their applications 30 days before the examination date.

PROFESSIONAL ENGINEER

December 7 - 8, 1961	Chicago
May 3 - 4, 1962	Chicago
December 6 - 7, 1962	Chicago

Applicants for the Professional Engineer examination must file their applications 60 days before the examination date.

STRUCTURAL ENGINEER

November 8, 1961	Oral Exam	Chicago - Navy Pier
November 9 - 10, 1961	Written Exam	Chicago - Navy Pier
February 24, 1962	Oral Exam	Chicago - Navy Pier
May 24, 1962	Oral Exam	Chicago - Navy Pier
May 25 - 26, 1962	Written Exam	Chicago - Navy Pier
September 8, 1962	Oral Exam	Chicago - Navy Pier

Applicants for the Structural Engineer examination must file their applications 30 days before the examination date.

LAND SURVEYOR

October 25 - 26 - 27, 1961	Department's Chicago office - 160 N. LaSalle
----------------------------	--

Applicants for the Land Surveyor examination must file their applications 20 days before the examination date.

UNIVERSITY OF ILLINOIS
DIVISION OF UNIVERSITY EXTENSION
URBANA

In Cooperation with the
College of Engineering
Announces a Course

PROFESSIONAL ENGINEERING REFRESHER

COURSE DESCRIPTION:

This course is planned primarily for those who wish to take the State of Illinois examination for registration as Professional Engineer. It offers a brief review in the fundamentals of engineering mathematics, mechanics, electricity, and strength of material. A large part of the course is devoted to the solution of typical engineering problems in the fields of engineering economics, civil engineering, mechanical engineering and electrical engineering with emphasis on the fundamental laws involved in their solutions.

PLACE AND TIME:

Eight sections of the course are offered. Classes meet eleven weeks.

ARLINGTON HEIGHTS, High School, 502 West Euclid, Room 220 at 6:30 - 9:20 p.m. on Tuesdays, beginning September 5, 1961.

BLUE ISLAND High School, Room 406, 12700 South Sacramento, at 6:30 - 9:20 p.m. on Wednesdays, beginning September 6, 1961.

CHICAGO Navy Pier, Room 17, Grand Avenue at the Lake, at 6:30 - 9:20 p.m. on Wednesdays, beginning September 6, 1961.

ELGIN Community College, 373 East Chicago Street, Room 205 at 6:30 - 9:20 p.m. on Thursdays, beginning September 7, 1961.

ELMHURST York Township High School, Room 134, 355 West St. Charles Road, at 7:00 - 9:50 p.m. on Mondays, beginning September 11, 1961.

LAGRANGE Lyons Township Jr. College, Room 180 Vaughn Building, 100 South Brainard, at 7:00 - 9:50 p.m. on Mondays, beginning Sept. 11, 1961.

SPRINGFIELD Springfield High School, Room 114, at 7:00 - 9:50 p.m. on Mondays, beginning September 11, 1961.

VILLA PARK Willowbrook High School, 1250 South Ardmore, Room 104, 6:30 - 9:20 p.m., on Tuesdays, beginning September 5, 1961.

TUITION:

\$30.00 per person. Registration will be conducted at the first class meeting and fees are payable at that time.

INSTRUCTORS:

Members of Engineering College Faculty.

SUBJECT LISTING OF NSPE PUBLICATIONS

Policies — Professional and Administrative is a 107-page booklet containing Society policies which affect the professional interests of the engineering profession as well as the legal and operational controls of NSPE. \$1.50 per copy. (Member rate does not apply.)

To order, simply check the publications listed and return this page with your remittance. Postage on all orders is paid by NSPE. Unless otherwise indicated, make checks payable to National Society of Professional Engineers. **NOTE: NSPE members may obtain paid publications at half price.**

CONSULTING PRACTICES

- ☐ So You Want to Open a Consulting Office\$.50

Engineering for Tomorrow

...1956, 15 minutes, color; North American Aviation.
Obtain from: North American Aviation, Inc., Public Relations Department,
Los Angeles Division, International Airport, Los Angeles 45, Calif.

Engineering in Action

...1956, 29 minutes, color; Allis-Chalmers.
Obtain from: Allis-Chalmers Mfg. Co., Advertising & Industrial Press Dept.,
Milwaukee 1, Wisconsin.

Getting Acquainted With Engineering

...1957, color, Iowa State University
Obtain from: Public Relations Office, Iowa State University, Ames, Iowa.

The Air Force Engineer

...1957, 30 minutes, color; Air Force.
Obtain from: (Contact the Public Information Officer at the Air Force base nearest you.)

Mechanical Engineering at Du Pont

...1955, 20 minutes, color; Du Pont.
Obtain from: Motion Picture Section, Advertising Dept., Du Pont Co., Wilmington, Del.

Engineer Mission

...1954, 26 minutes, black & white; U. S. Army Corps of Engineers.

Look Toward Tomorrow

...1960, 29 minutes, color, U. S. Army.
Obtain from: (Address requests to the Commanding General of the appropriate Army area, attention Signal Officer.)

To Enrich Mankind

(Advice on a career in mechanical engineering.)

...1955, 23 minutes, color; ASME.
Obtain from: The Jam Handy Organization, 2821 E. Grand Blvd., Detroit 11, Mich.

A Bridge is Born

...25 minutes, color; ASCE.
Obtain from: American Society of Civil Engineers, 33 W. 39th St., New York 18, N.Y.

A Dawn's Early Light

(The uses of nuclear energy for peaceful purposes.)

...1953, 33 minutes, color; Westinghouse.
Obtain from: Westinghouse Electric Corporation, Film Division,
3 Gateway Center Building, Pittsburgh 30, Pennsylvania.

DEPARTMENT OF REGISTRATION AND EDUCATION STRENGTHENS INVESTIGATING STAFF

(Continued from Page 1)

As assistant state's attorney from 1955 to 1956, White represented Cook county and the state in cases before the Illinois Supreme Court and the Appellate Court. He was appointed attorney for the Chicago Department of Investigation in 1957 and later became deputy commissioner. He was named director of the Illinois Department of Registration and Education February 21, 1961.

Each investigator attending the school was furnished with a working manual of the office. A "true" or "false" examination on all 24 professions was required, which makes the new investigators the best trained in the department's history.

Director White said he plans to have a department investigator call on every licensee in the State of Illinois to see that he is abiding by the law in every way.

HAVE YOU CHECKED NELSEN CONCRETE'S PERFORMANCE/COST RATIO?

Modular bridge constructed entirely of precast units.

Old bridge with new super-structure of transverse slabs.

New bridge with transverse slabs laid over I-beams.

Latest in rubber gasket and heavy-duty pipe.

Whether you're designing a bridge, a sewer system, or almost any construction project requiring precast concrete components, Nelsen Concrete invites you to check its standard and custom precast units and run cost

studies for your project. For the best in close tolerance precast units, check with Nelsen... for continuous operation that you can count on and for the low overhead that goes with maximum use of labor and equipment.

NELSEN PRECAST UNITS AND FEATURES...

Back-up and wing slabs

Span Lengths ... 12' to 40' in standard precast lengths.

Loadings ... H15-S12-44 and H20-S16-44, with or without wearing surface.

Tolerances ... depth $\frac{1}{8}$ "; length $\frac{1}{4}$ " in 10'.

Posts ... meet or exceed AASHTO requirements.

Precast Caps ... dowel holes, crowns, and leveling screws are provided for use with all types of precast caps.

Precast Piling ... 14", 16" in stock; 12" and 18" also available.

Transverse Bridge Slabs ... precast complete with crowns and leveling screws ... for long span structures and heavy-duty temporary bridges.

Pipe ... modern machined-tolerance *rubber gasket pipe* in 6' lengths for 8" and 10" sizes and 7½' lengths for 12" through 84". Standard sizes and long lengths also available for mortar or bituminous joints.

WALKER PROCESS EQUIPMENT AT THIS PLANT INCLUDES . . .

grit collector and conveyor; Sparjaer diffusers for grit aeration, pre-aeration, activated sludge aeration, re-aeration and holding tank aeration; eleven Airpump air lift pumps for return activated sludge; three Gaslifters for digester circulating; a digester gas holder and two Multi-draw, suction type final tank collectors with corner sweeps.

Mansfield, Ohio's modern sewage treatment plant was dedicated in October 1960. With present population exceeding 51,000, plant design is based upon a 1980 population of 110,000; with provisions to expand to handle 220,000.

Floyd G. Browne & Associates,
Marion, Ohio—Consulting Engineers
George W. Cunitz, City Engineer
Lawrence E. Rigby, Plant Superintendent

...Walker Process sewage, water and waste treatment equipment

Consulting Engineers, in designing modern treatment facilities, have found that Walker Process offers one of the most complete selections of process equipment in the sanitary engineering field. Walker Process engineers and manufactures treatment units to handle every phase of modern sewage treatment processes. Similarly, equipment for iron removal, sedimentation, mixing, flocculation, softening, turbidity removal, and carbonation is offered for water treatment. Specially developed industrial units are also available for solids-in-liquids recovery and/or waste problems. Through

sound engineering, continuing research and up-to-date manufacturing methods, Walker Process has contributed many improvements and new developments. SPARJER aeration units, GASLIFTER digester gas-lift mixers, CARBALL CO₂ producers, CLARIFLOW clarifiers and SPARJAIR compact sewage treatment plants are but a few of the exclusive Walker Process developments for which they are renowned. Write for complete information. Sales-Engineering representatives are located throughout the U. S., Canada, Mexico, New Zealand, Australia and Japan.

You can't legislate against carelessness

Many businesses and industries discharge strictest regulations on what may or may are, defeated by one willful or ignorant may be called upon to carry. The only answer is to construct sewers of a pipe that can safely carry virtually every known chemical. There is only one pipe you know will endure: vitrified clay pipe. Amvit Jointed Clay Pipe is strong and rigid, can't sag or bend. The plastic joint, like the pipe, is acid resistant. And, roots cannot enter this tight compression joint. Acid-laden, high temperature sewage will not bother Amvit Jointed Clay Pipe in any way. Neither will the abrasive action of sand or gravel. For more information on how Amvit can help cut sewer project costs, write or call American Vitrified Products Company, National City Bank Building, Cleveland, Ohio, or our office nearest you. We're the only company that can give you overnight delivery to any point from Missouri to Maine.

their waste products into city sewers. The not be dumped into sewers can, and often person. You cannot tell what your sewers

may be called upon to carry. The only answer is to construct sewers of a pipe that can safely carry virtually every known chemical. There is only one pipe you know will endure: vitrified clay pipe. Amvit Jointed Clay Pipe is strong and rigid, can't sag or bend. The plastic joint, like the pipe, is acid resistant. And, roots cannot enter this tight compression joint. SINCE 1848

From PCA's \$10,000,000 laboratories come great advances in concrete research

When you need the facts on concrete just call on PCA

Your local PCA field office is one of thirty-two across the nation—staffed by professionally qualified engineers, architects and farm specialists. Backed by more experts at PCA national headquarters in Chicago, they are here to help you with up-to-the-minute advice and information on every phase of concrete construction.

It's a service made possible by the more than 70 member cement companies who voluntarily support the Portland Cement Association in its research, educational and technical service activities.

Informative literature of every type on modern uses of concrete is yours for the asking. For an authoritative, friendly source of information—call on PCA.

PORTLAND CEMENT ASSOCIATION

111 West Washington Street, Chicago 2, Illinois

A national organization to improve and extend the uses of concrete
